

1. Applies to cohort commencing in:	2020		
2. Degree Granting Body	University of London		
3. Awarding institution	The Royal Veterinary College (University of London)		
4. Teaching institution	The Royal Veterinary College (University of London)		
5. Programme accredited by	Elements of PGCertVetEd, Advance HE (2019)		
6. Name and title	Master of Science in Veterinary Education		
7. Intermediate and Subsidiary Award(s)	Foundation in Veterinary Education Module (includes requirements for AFHEA) Postgraduate Certificate in Veterinary Education (includes requirements for FHEA) Postgraduate Diploma in Veterinary Education		
8. Course Management Team	Professor Stephen May		
9. FHEQ Level of Final Award 10. Date of First Intake	Level 7 See https://www.qaa.ac.uk/quality- code/qualifications-and-credit-frameworks Sept 2009 – PG Diploma Sept 2010 – PG Certificate		
	Sept 2010 – NSc stage of programme Sept 2011 – PG Certificate (distance learning) Sept 2011 – Fundamentals in Veterinary Education (leading to AFHEA)		
11. Frequency of Intake	FIVE Module – annually in September PG Cert – annually in September PG Dip – throughout the year MSc – annually in September		
12. Duration and Mode(s) of Study	Three to six calendar years; part time. During the Coronavirus/COVID-19 pandemic, all versions of the VetEd programme switched to distance learning. The blended programme, with a mixture of on-campus and off-campus learning, will resume this format in 2021, when it is safe so to do'.		

13. Registration Period (must be in line	Full Minimum	Time Maximum	Part Minimum	Time Maximum
with the General Regulations for Study and Award)	n/a	n/a	3 years	6 years
14. Timing of Examination Board meetings	Biannually in autumn and spring			
15. Date of Last Periodic Review	2015			
16. Date of Next Periodic Review	2021			
17. Language of study and assessment	English			
18. Entry Requirements	https://www.rvc.ac.uk/study/postgraduate/veterinary-education			
19. UCAS code	N/A			
20. HECoS Code	100509			
. Relevant QAA subject benchmark N/A				
22. Other External Reference Points				
UK Professional Standards Framework of Advance HE				

23. Aims of programme

Postgraduate Certificate

The overall aim of the Postgraduate Certificate in Veterinary Education is to enhance the professional development of educators in the veterinary and para-veterinary sectors and to:

- facilitate the development of staff that have a substantial role in all areas of teaching and learning
- · develop skills and knowledge in all areas of teaching and assessment
- maintain evidence-based professional practice
- develop competent and reflective practitioners with a commitment to being engaged in the UK Higher Education Professional Standards Framework (UKPSF).

Postgraduate Diploma

The programme is designed for educators who have completed a PG Certificate in Veterinary Education or equivalent qualification, and want to further explore Veterinary Education. It is targeted at those involved in teaching and assessment of veterinary and allied sector disciplines.

24. Overall Programme Level Learning Outcomes - the programme offers opportunities for students to achieve and demonstrate the following learning outcomes.

Postgraduate Certificate By the end of the course, Postgraduate	Modules in which each learning outcome will be developed and assessed:
 Certificate holders will be better able to: Design, justify and critically evaluate a range of educational approaches, taking into account the diverse needs of students and disciplinary areas Critically evaluate different teaching approaches and methods in order to develop your own teaching practice in the light of what is known about learners' needs Develop, critically evaluate and implement appropriate assessment and feedback strategies to ensure that students achieve their learning outcomes Critically evaluate approaches to student support and guidance in diverse learning environments Critically evaluate educational research and use it, alongside critical reflection, to develop your own professional practice. Recognise the positioning of students' education in the context of wider stakeholders, and incorporate this into pedagogical decisions where appropriate 	 Foundations in Veterinary Education Student learning Teaching Methods and Learning Materials Evidence to Practice Assessment and Feedback "Putting it all together": Curriculum Applied Concepts in Veterinary Education Educational Strategies and Employability Leadership and Self-Regulated Learners Learning in the Virtual World Learning in the Workplace "Putting it all together": The Reflective Practitioner

Postgraduate Diploma & MSc

The programme offers opportunities for Candidates to achieve and demonstrate the following learning outcomes: An MSc graduate of the programme will be able to:

- Evaluate educational theories, methods and practice which can be applied to Veterinary Education
- Develop, design and deliver courses and programmes using a wide range of appropriate course development and delivery tools
- Appraise curriculum design and models to ensure that teaching methods comply with standards and quality appropriate to the level of skill development
- Select and use appropriate assessment and evaluation strategies to ensure that learning outcomes are met
- Identify, critically assess and address the emerging needs of the training requirements to match the demands of the local provision
- Adopt new teaching technologies to maximize skill development
- Be a reflective and self-evaluative practitioner
- Critically appraise research in veterinary and related educational fields, and develop skills to undertake qualitative and quantitative research using appropriate methodologies
- Continue to develop independent and lifelong learning skills to promote their own personal and professional development as veterinary educators, researchers and leaders

Knowledge and understanding of:

- Theories of learning, how students learn, learning styles and how to motivate and support learners.
- Different teaching methods to be used in different environments, in small group, large group, practical, clinical settings, e-learning
- Overview of problem based, task based and work based learning and how each can be effectively used
- Assessing student learning, how to design assessment to align with

Four modules of 15 credits each chosen from:

PG Diploma

Four 15-credit modules, selected from a variety of options. (Current modules provided below as an example): Professional Identity and interprofessionalism Teaching the basic sciences in a clinical context Assessment, Feedback and Learning Clinical Reasoning and patient-side teaching Small group teaching Lecturing and Teaching in Large groups

Research Bridging Module

Evidence Based Veterinary Education. This is a compulsory module, provided annually, for Diploma students who wish to progress to the MSc, and it must be taken during the student's Diploma studies. Students with previous research experience at Level 7 or above will be able to apply for exemption.

MSc

Educational Research Methods – Qualitative and Quantitative

MSc Project

learning and giving feedback to promote learning

- Evaluating and improving own practice through reflective and critical analysis of own teaching and tracking a teaching and learning portfolio for professional development
- Big educational theories, current trends and how they apply to veterinary education
- Pedagogic research and critical evaluation of both generic and veterinary educational literature to adopt best practice
- Basic principles in curriculum design, vertical and horizontal integration and how to align curriculum with outcomes and assessment
- Teaching different skills as students' progress through years, study skills, communication, clinical and independent learning skills.

Cognitive Skills:

- Reflection
- Self-evaluation
- Critical thinking
- Reasoning

Practical skills:

- Ability to develop effective teaching to small and large groups, one to one teaching and online students at a distance
- Develop appropriate assessments to enhance learning
- Peer observation of teaching
- Developing and managing an online discussion group
- Reflective writing to evaluate own development
- Critical appraisal of technology that is available for teaching
- Curriculum development to ensure learning outcomes
- Critical review of educational literature
- Analyse qualitative and/or quantitative data on educational research

Key Skills:

- Development of independent learning, taking responsibility for own studies
- Time management skills

 Organizational skills Becoming a reflective self-manager, by taking a systematic, analytical, strategic and reflective approach to tasks Information gathering and analytical skills to make own judgements about ideas and knowledge Language skills Information technology skills 	
Learning outcomes should be specified for all intermediate awards as well as for the terminal award.	

25. Teaching/learning methods	Approximate total number of hours
Teaching, learning and assessment activities are aligned to ensure the objectives of the programme are clearly defined and that Candidates have the opportunities to achieve these outcomes. Assignment tasks within each module help to establish the theoretical knowledge base and assessment activities are designed to enhance the practical component and help Candidates to develop their own teaching practice. All teaching, learning and assessment activities are designed to help Candidates become actively involved in their learning and provide tools for them to identify and manage their learning to achieve the learning objectives to the best of their ability.	This is a mixed mode programme consisting of distance learners and face to face students, therefore the amount of time spent on each mode of learning will vary depending on the student status.
The teaching and learning activities will include a range of established and novel approaches. Using a combination of face- to-face and online modes, the activities will include:	
 Practical workshops - to include small group work, critical analysis of scenarios, exploring ideas based on experiences, role rehearsal, presentations Tutor and Peer observation - of teaching practice and critical appraisal by tutors and peers as well as critical appraisal of peers Self-directed and independent study - using LEARN, the virtual learning environment, using a range of resources available via online library and structured readings as advocated by the tutors. Developing a reflective diary - for personal reflection. Online presentations - using Video-conferencing software such as Adobe Connect or SKYPE for synchronous discussions Work-Based Directed Tasks Literature-based research 	
This programme is designed so that the student is provided with all the materials that are needed to study for the MSc development.	

26. Assessment methods	Percentage of total assessment load
 'Learning through assessment' is the main philosophy that is being adopted in developing assessments in the programme. Assessment has been aligned to learning outcomes and to influence learning. In all the modules assessments have been designed to incorporate the learners own work requirements and facilitate reflective practice. The following assessments methods are used: Tutor marked assignments Tutor and peer assessed teaching observations Tutor and peer assessed face-to-face presentations Tutor and peer assessed face-to-face presentations Tutor and peer assessments on use of technologies for teaching Reflective and critical portfolio development Reflective and evaluative essays tracking own development Research methodology Academic writing 	 Foundations in Veterinary Education (as freestanding module, for AFHEA) In-course Assessment – Must complete Teaching Observation – 40% End of Module Summative Reflective Assignment – 60% Postgraduate Certificate In-course Assessment – Must complete End of Module Summative, Reflective Assignments – 60% Teaching Observation – 20% Teaching Presentation – 20% Postgraduate Diploma Module practical tasks and assignments – 4 modules x 25% for each MSc End of Research Methods Module Assignment – 25% Research project and report – 75%
27 Foodback	

27. Feedback

We recognise that each student's learning requirements are different and that they will change throughout their progression through the course. At the start of the programme, Candidates are given structured guidance and learning support in particular on reflective practice to enable them to become reflective practitioners. This will be achieved via face to-face and on-line discussions. The tutors will provide feedback and hints for improving performance and learning. Discussion and sharing of learning points with others on the course is encouraged to help each learner develop his or her own understanding of the content.

	Module Title	FHEQ Level	Credits	Compulsory or optional
Year 1	Foundations in Veterinary Education (FIVE)	7	30	Compulsory
Year 1	Applied Concepts in Veterinary Education (CIVE)	7	30	Compulsory
Year 2	 Four of the following five modules of 15 credits each chosen from: Teaching the basic sciences in a clinical context Assessment, Feedback and Learning Clinical Reasoning and patient based teaching Small group teaching Lecturing and Teaching in Large groups Plus Evidence Based Veterinary Education (compulsory Diploma Module for those wanting to proceed to MSc without previous level 7 or level 8 degree) 	7	60	Compulsory (4 modules)
Year 3	Research Project	7	45	Compulsory
Year 3	Advanced Educational Research Methods – Qualitative and Quantitative	7	15	Compulsory
29. Work Placement Requirements or Opportunities		Advance HE stipulates for those seeking AFHEA or FHEA recognition that they must be employed in the delivery of Higher Education (UK qualification level 6 or above, or international equivalent).		
30. Student Support		http://www.rvc.ac.uk/study/supp ort-for-students
