23. Aims of programme

To support and develop veterinary educators to become reflective practitioners, who are able to demonstrate self-directedness, independence and autonomy in lifelong learning and scholarship.

Postgraduate Certificate

To develop educators who are able to engage with education research and theory and use this to critically evaluate, reflect on and develop their own teaching or educational practice.

Postgraduate Diploma

To develop educators who can use education research and theory to critically reflect on their own education practice, and in addition use this knowledge and skills to support the development of peers and contribute to wider curriculum and programme design.

MSc

To support educators in the practice of education research, including critical review of contemporary research, the needs of education, and personal and professional development as educators, researchers and leaders

24. Overall Programme Level Learning Outcomes - the programme offers opportunities for students to achieve and demonstrate the following learning outcomes.

On successful completion of the Postgraduate Certificate course, students will be able to:	Modules in which each learning outcome will be developed and assessed:
 Design, justify and critically evaluate a range of educational approaches, taking into account the diverse needs of students and different disciplinary areas, as well as personal reflections on experience. 	 Foundations in Veterinary Education Applied Concepts in Veterinary Education
Develop, critically evaluate and implement appropriate assessment and feedback strategies to support students in achieving their learning outcomes.	 Foundations in Veterinary Education Applied Concepts in Veterinary Education
Critically evaluate education theory and research and use it to critically reflect on and develop one's own education practice.	 Foundations in Veterinary Education Applied Concepts in Veterinary Education
Recognise the positioning of one's own role in both the local and wider educational context, and be able to make appropriate pedagogical decisions about student education in a	 Foundations in Veterinary Education Applied Concepts in Veterinary Education

way that reflects one's own role as well	
as the impact on wider stakeholders. On successful completion of the Postgraduate Diploma course, students will be able to:	Modules in which each learning outcome will be developed and assessed:
Building on the PG Certificate outcomes, engage in-depth with current education literature and discourses in a specific subject area, and consider this critically within the context of participants' own education experiences and roles (Competence: supporting critical development)	 Assessment, Feedback and Learning Clinical Reasoning and patient-side teaching Small group teaching Teaching in Large Groups in the Modern University Professional identity and interprofessionalism Evidence Based Veterinary Education - bridging module and not part of the Diploma
Design, justify and critically reflect on education interventions for one's own context, based on pedagogically sound principles and theories, and demonstrate how these fit into the wider curriculum design (Assessment: practical)	 Assessment, Feedback and Learning Clinical Reasoning and patient-side teaching Curriculum development and leadership Education leadership and coaching Small group teaching Engaging large groups in the modern university Professional identity and interprofessionalism Technology supported learning and teaching Evidence Based Veterinary Education - bridging module and not part of the Diploma
Critically reflect on others' teaching practices, and design feedback to support peer development (teaching/ formative assessment: peer observation)	 Assessment, Feedback and Learning Clinical Reasoning and patient-side teaching Curriculum development and leadership Education leadership and coaching Small group teaching Engaging large groups in the modern university Professional identity and interprofessionalism Technology supported learning and teaching Evidence Based Veterinary Education - bridging module and not part of the Diploma

On successful completion of the MSc course, students will be able to:	Modules in which each learning outcome will be developed and assessed:			
Critically evaluate qualitative and quantitative education research that is relevant to one's own discipline (ERMQQ)	 Educational Research Methods – Qualitative and Quantitative Research Project 			
 Identify and critically assess education and how it meets the demands of local needs, and design research that contributes to addressing identified education issues (ERMQQ and RP) 	 Educational Research Methods – Qualitative and Quantitative Research Project 			
Develop and carry out education research, including applying appropriate quantitative and/or qualitative research methods (RP)	 Educational Research Methods – Qualitative and Quantitative Research Project 			
Take the lead on preparing education- based manuscripts suitable for peer reviewed publication (MSc written report)	 Educational Research Methods – Qualitative and Quantitative Research Project 			
Critically reflect on one's own research and related education practice (MSc viva)	 Educational Research Methods – Qualitative and Quantitative Research Project 			
Communicate the methods and outcomes of one's own education research to experienced colleagues (Written report and viva)	 Educational Research Methods – Qualitative and Quantitative Research Project 			
25. Teaching/learning methods	Approximate total number of hours			

 Online learning: Recorded video presentations Reading material Asynchronous written peer discussion Interactive 'real time' seminars Small group tutorials Online activities 	 Postgraduate Certificate: 600 study hours Postgraduate Diploma: 600 study hours MSc: 600 study hours Study hours are based on the credits awarded for the individual modules. They include a combination of contact time, self-study and reflection: Focused study time, working through online course materials and engaging in required module activities Assessment time: planning and preparing formal assignments Informal study time: reflecting on the application of taught content to one's daily practice, which might take place during the participant's own teaching and professional work. 					
26. Assessment methods	Percentage of total assessment load					
 Formative assignments Peer feedback Observation of teaching Formative presentations (tutor and peer feedback) Reflective essays Research essays Presentations of teaching / curricular plans Research (MSc) Research project report (MSc) Viva (MSc) 	Postgraduate Certificate In-course Assessment – Must complete End of Module Summative, Reflective Assignments – 100% Teaching Observation – must pass Teaching Presentation – must pass Postgraduate Diploma Formative practical assignment– Must complete Written assignment 50% Practical presentation 50% MSc Educational Research Methods – Qualitative and Quantitative – 25% Research project and report – 75%					
 Feedback on formative assignments is integral during all parts of the programme. This includes: Tutor and peer feedback on reflective essays Tutor and peer feedback on teaching presentations Tutor and peer feedback on research ideas 						

• Tutor and peer feedback on research ideas

31. Programme structures and requirements, levels, modules, credits and awards NB: Students planning more than a Stage ahead should be aware that the College will not deliver any module or part of a programme if circumstances have changed to threaten its quality or viability. Such offerings could change after a student has started the course. However, the College will always offer alternatives that will be of equal cost in both fees and add-on expenses to the student and of equal academic value.
