

Duration of the Degree

The BSc Animal Biology, Behaviour, Welfare and Ethics degree takes three years and will be taught at both the Camden and Hertfordshire (Hawkshead) Campuses. There are three terms a year with holiday periods in winter, spring and summer. Years 1 and 2 will be predominantly taught at our Camden Campus, and Year 3 predominantly at our Hertfordshire Campus. Where it is necessary to attend teaching at the Hertfordshire Campus during the first two years of the course, transport will be provided free of charge between the campuses. Individual students who wish to visit these locations outside of timetabled hours must make their own travel arrangements and incur any additional costs. It is expected that students will live in the vicinity of the Hertfordshire Campus during Year 3 of the course and therefore such transport arrangements will not be made. Any student wishing to visit the Camden campus (or opting to live in this vicinity) must make their own travel arrangements and incur any additional costs.

Methods of Teaching

You will be taught through lectures and interactive seminars with an emphasis on small group teaching and extensive laboratory and other practical work. Animal-related visits are also included in the second and third years. Project work will begin to develop in the second year during a 6 week research group study and culminate in a 12 week research project in the third year. The amount of time to be spent in different types of learning can be accessed from the study pages of the RVC website at

<http://www.rvc.ac.uk/study/undergraduate/bsc-biological-sciences-animal-behavior-and-welfare>

Accreditation

BSc Animal Biology, Behaviour, Welfare and Ethics has been awarded Interim Accreditation by the Royal Society of Biology.

Core and Optional Modules for students beginning in 2019

Module Title

Core Modules in Year 1

- Biology of Cells
- Inheritance, Genetics and Evolution
- Developmental Biology
- The Moving Animal
- Integrated Physiology I
- Integrated Physiology II
- Problem Definition and Investigation (includes first year project)

Core Modules in Year 2

- Basis of Disease
- Aging and Degeneration
- Principles of Infectious Disease
- Control of Infectious Disease
- An Introduction to Animal Welfare, Behaviour and Ethics
- Research Project

The following Optional Module is normally available in the Second Year:

- Principles of Pharmacology
- Wild Animal Biology

*Core Modules in Year 3**

- Animal Behaviour and Cognition
- Science of Animal Welfare
- Animals and Human Society
- Applied Animal Welfare
- Research Project [compulsory]

***choose three from the list above, plus the Research Project, and one more from below.**

Optional modules in Year 3 (choose one from):

- Advanced Concepts in BioBusiness
- Advanced Concepts in Reproduction
- Advanced Skeletal Pathobiology
- Applied Molecular Microbiology
- Comparative Models of Disease
- Endocrine and Metabolic Syndromes
- Epidemiology: the Bigger Picture

- Parasitology of Human and Veterinary Tropical Diseases
- Practical Investigative Biology

Additional modules may also be available subject to them not clashing with your core module choices. Students on this programme can normally elect a module from King's College London in third year, place of an RVC elective. Students can also elect to take all four of the core modules in place of an elective.

Teaching Staff at RVC

All teaching staff at RVC are fully qualified to teach at Higher Education level. Most staff are involved in research as well as teaching and hold research qualifications. You will find biographical details on all members of staff on the RVC website. Staff will teach through lectures, seminars and practicals and also work with students in tutorial groups.

| • Year One Leader | Dr Donald Palmer |
| • Year Two Leader | Dr Abir Mukherjee |
| • Year Three Leader | Dr Bradley Cobb |
| • Pathway Leader | Dr Charlotte Burn |

Fees and Costs

The fee for the first year for UK and EU students studying undergraduate degrees at RVC in 2019-20 is £9,250.

The fee for the first year for international students on the BSc Animal Biology, Behaviour, Welfare and Ethics is £19,130.

The fee for each specific degree programme can be found in the *Key Information* provided on the subject page of each programme on the RVC website:

<https://www.rvc.ac.uk/study/undergraduate/bsc-animal-behaviour-and-welfare>

Further information about fees can be found here: <http://www.rvc.ac.uk/study/fees-and-funding>.

Tuition fees in future years

It is RVC policy to set and review tuition fees on an annual basis. The fees indicated above are for the first year of tuition only and may be subject to increase in future years (see below). Should it be necessary to increase these costs, you will be consulted and notice given as to when such increases may occur and by how much.

We publish a tuition fee policy annually on our website that sets out how fees are set and collected, and describes what students and sponsors need to do. This can be found on our website <https://www.rvc.ac.uk/Media/Default/1%20Fees%20and%20Funding/tuition-fee-policy.pdf>

Explanation of Fees

The RVC adheres to the UK Government's legislation regarding fees for UK and EU students which sets the maximum fee for these categories. Subject to the approval of legislation in parliament in future years, institutions including the RVC may be permitted to raise fees for UK/EU students at an inflationary rate linked to the Retail Price Index (RPI). We therefore, advise all UK/EU students considering study at the RVC to plan their finances based on such year-on-year inflationary increases.

The fees for non-EU international students are also listed at the above links. These are substantially higher than UK/EU fees as the RVC receives no government subsidy or support for such students and therefore has to charge "full cost fees". In deciding the annual level of increase for non-EU students, the College will take into account a range of factors, including rises in the costs of delivery of its teaching programmes and changes in government funding. The increase will not exceed 5% each year or the Retail Price Index (RPI) if higher. We will publish the fee in September of the preceding academic year.

Additional costs

The fees do not cover accommodation costs, which for 2018-19 ranged from £168 to £257.95 per week over a 40, 42, 48 or 50 week contract depending on hall of residence and catering options. The majority of RVC science students paid between £168 and £223 per week for accommodation in this period.

Other course costs are kept to a minimum and may include items such as printing/photocopying and occasional field trips.

The RVC now has an efficient paperless curriculum which keeps paper costs to a minimum. You are provided with an annual allowance of approx. £10 for any printing or copying you decide to do. Current A4 prices are 4.8p per sheet for black and white copies and 10p for colour copies.

You will have to purchase a Howie laboratory coat for use during practical classes. At the time of writing, the price is £15 and they can be purchased from the Students Union. There are no other charges for practical classes.

EU students and Brexit

For EU students accepting a place on a programme as a UK/EU fee student for entry in the academic year 2019/20, the UK Government has now confirmed that funding arrangements will also allow them to pay the same tuition fees as UK students for the duration of the student's enrolment on that specific programme.

EU students will still be permitted to enter the UK, after the UK has left the EU. However, they will need to apply for immigration permission at some point, once they have arrived. The details of when and how is dependent on whether a deal is reached between the UK and EU. The RVC will contact EU offer holders with more information, once the situation becomes clear.

Campus developments

Investment in the Hawkshead campus in the coming years will see the building of new and improved teaching and research facilities. Students should be aware that these works are likely to be taking place over the next 2-2.5 years

Procedures, Policies and Processes

The RVC has a range of policies and statutory requirements with which it must comply. These documents are available on the college's website from which the full documents can be accessed. This link is at www.rvc.ac.uk/about/the-rvc/academic-quality-regulations-procedures. Information on Complaints Procedures is also available.

If you wish to complain about a matter relating to a course of study, you should first contact the RVC Registry who will advise you. Every effort will be made to deal with the issue promptly, fairly and transparently.

You may also take complaints and concerns to the Office of the Independent Adjudicator (OIA), details of which can be found at www.oiahe.org.uk.

Student Protection Plan

In line with the good practice mandated by the Office for Students (OfS), the RVC has produced a Student Protection Plan. The plan sets out how we ensure continuation of studies for our students and the measures we have put in place to mitigate any risks we think could occur. This can be found on our website <https://www.rvc.ac.uk/about/the-rvc/academic-quality-regulations-procedures#panel-further-student-policies-and-procedures>

This document is available on the RVC website.
