## Introduction

**Internship** programmes are for recently qualified veterinary graduates wishing to develop their clinical skills, experience and knowledge of small animals, horses or farm animal health and production. Interns are enrolled on a Postgraduate Diploma in Veterinary Clinical Practice (VCP).

**Resident** programmes are designed for veterinary graduates with a minimum of one year's experience in clinical practice or as an intern who wish to specialise in a specific discipline. Residents are enrolled on a Masters course offered by the Royal Veterinary College and must register for an advanced professional qualification, typically a Diploma from a European or American Specialist College. By the end of the programme they will have obtained a Masters degree and have either completed, or be close to completing, the requirements for their advanced professional qualification.

The Code of Practice is written for Interns and Residents and should be read in conjunction with the College's Regulations and Procedures, <http://www.rvc.ac.uk/about/the-rvc/academic-quality-regulations-procedures> , PGDip VCP and \*MVetMed Programme Specifications and Assessment & Award Regulations. Together these documents set out the regulations and procedures for Interns and Residents. Further information and forms referred to in the Code of Practice can be found on the Graduate School and/or \*MVetMed, PGDip VCP sites on RVC Learn. *\*or another Masters course if applicable.*

The Code of Practice is up-dated annually and an electronic copy sent to all Interns, Residents and their supervisors, the PGDip VCP and MVetMed course directors, programme support coordinators and the CTS programme directors. The current version is available on the Graduate School site on RVC Learn.

## **1.1. General Information for Interns and Residents**

Interns and Residents must be registered with the Royal College of Veterinary Surgeons (RCVS). Responsibility for ensuring they are registered and for paying the annual registration fee rests with the individual scholar.

All Interns and Residents are categorised as full-time postgraduate students and as such are required to be registered with the Graduate School at the start of their programme of study. They are expected to abide by the Code of Practice for Interns and Residents in matters relating to their roles and responsibilities whilst undertaking their programme of study at the College.

Interns and Residents are required to obtain the consent of the Principal of the College before becoming a member of any outside committee or expressing their views in public on matters connected with the work of the College (this does not preclude a CTS from addressing scientific or professional gatherings). If they should feel aggrieved at a refusal of consent by the Principal there will be a right of appeal to the College Council.

Communications to the press, radio or television, excluding scientific communications to the scientific and veterinary press, or on social media networks, expressing personal views may not be communicated from the College address except by permission of the Principal.

Interns and Residents may be required to participate in College events as directed by the Head of Department.

Specific departmental allowances are available to cover or contribute to the cost of CPD, travel, conferences, AV production, photocopying

and library requests. This information is available to Residents on request from their Head of Department.

### **1.11 Internships**

Internships are usually 54 weeks (or one year), subject to a satisfactory progress review. A formal progress reviews will be at 6 months, however multi-source feedback will be provided at a minimum of every quarter, or at the end of each rotation. Ad-hoc progress reviews can be organised if deemed necessary by the supervisor or the student has gained a result of “review Progress” (which will be triggered with unsatisfactory multi-source feedback). For those wishing to leave before having completed their programme of study, a notice period of *up to three months* should be agreed with the Programme Director and approved by their Head of Department. Interns whose performance is found to be unsatisfactory may be required to withdraw from the programme (see section 3).

The total annual leave entitlement is 20 days *inclusive* of bank holidays; there is no entitlement to the College discretionary days unless they are taken from the 20 day allowance. The leave year will run from the start date of the scholarship.

During sickness absence covered by medical certificates, payment of the award will continue at the full rate for four weeks. Any payment beyond this period will be at the discretion of the College.

Interns funded by the College are not entitled to paid maternity, paternity and adoption leave. Any extension of the scholarship following a period of unpaid leave is at the discretion of the appropriate Head of Department. *Scholars funded by other sources are governed by the terms and conditions of their sponsor in these circumstances.* All requests to interrupt their studies must be submitted in writing to the Graduate School and will then be

considered by the Postgraduate Academic Progress Committee, which will make the final decision.

### **1.12 Residencies**

Residencies are normally awarded for 36 months of full-time study, although external funding may be available for training periods of up to 48 months. Continuation on the Residency programme is subject to satisfactory performance at progress assessments (see Assessment & Award regulations).

The maternity/adoption policy for Residents can be found on the MVetMed site on RVC Learn. All requests to interrupt their studies must be submitted in writing to the Graduate School and will then be considered by the Postgraduate Academic Progress Committee, which will make the final decision.

#### **Residents supported by external funding:**

Those Residents paid by an external funder whether based at their premises or at the RVC must abide by the funders' terms and conditions including those relating to annual leave, sickness and maternity pay.

#### **Residents funded by the RVC**

The annual leave entitlement is 25 days *inclusive* of bank holidays; there is no entitlement to the College discretionary days unless they are taken from the 25 day allowance. The leave year runs from the start date of the scholarship. Annual leave cannot be carried forward from one leave year to another except in exceptional and approved circumstances. In the event of the scholarship ending early, leave entitlement will be on a pro-rata basis.

Residents may also take up to 5 days a year to attend such meetings, seminars, tutorials and lectures and preparing written reports as approved by their supervisor. They may be able to undertake additional CPD during the course of the scholarship if deemed necessary and approved by their supervisor.

During sickness absence covered by medical certificates, payment of the monthly stipend will continue at the full rate for four weeks. Any payment beyond this period will be at the discretion of the College.

Any extension of the scholarship following a period of unpaid leave is at the discretion of the appropriate Head of Department.

For those wishing to leave *before* having completed their programme of study, a notice period of *up to three months* should be agreed with their head of service and approved by their Head of Department. See Assessment & Award regulations for information about notice periods for Residents who are required to leave the programme because their performance has been found to be unsatisfactory at progress assessment.

## **2. Responsibilities**

### **2.1. Departments**

Individual departments have responsibilities for ensuring that there is an infrastructure which will support Interns and Residents whilst they are carrying out their studies.

#### **Responsibilities of a Head of Department include:**

- Guaranteeing the funding from departmental or other sources for Internships/Residency positions before they are advertised;
- Working with the Vice Principals for Clinical Services, Learning & the Student Experience and Research & Innovation, as well as the

clinical directors in the hospitals, to ensure that appropriate clinical, pathology and research facilities are available to support the Internships and Residency programmes;

- Ensuring that each Intern/Resident has access to adequate workspace, including use of a desk, telephone, photocopier and networked computer;
- Ensuring that Interns/Residents are provided with all the appropriate health and safety information.
- Supporting the Internship/Residency programme directors and supervisors in offering training programmes that meet the needs within their department;
- Ensuring that a head of service has put in place suitable alternative supervisory arrangements in the event of a Resident's main and/or research supervisor being absent for a prolonged period;

## **2.2. The Graduate School**

- Ensuring that minimum entry requirements are met, making offers of admission and registering Interns and Residents on their respective programmes of study at the RVC. *Registration with the appropriate American or European specialist board is the responsibility of the Residents.*
- Monitoring the progress and overseeing the progress assessment of Interns and Residents;
- Approving administrative matters and assisting with progress issues where appropriate through the Postgraduate Academic Progress Committee (PG APC).

### **2.3. Clinical Training Scholarship Programme Directors**

- Ensuring that the Intern/Resident receive an appropriate induction to their programme of study;
- Act as supervisor(s) for the Intern/Resident on the programme they direct;
- Advising the Intern/Resident, or ensuring they receive guidance, on all relevant aspects of their clinical service work;
- Providing the Intern/Resident with encouragement, support and feedback on their progress;
- Monitoring the general welfare of the Intern/Resident, and informing them of sources of specialist assistance where necessary;
- Listening to the concerns of individual Intern/Resident and, where appropriate, recommending an appropriate course of action which may include referring the scholar to PG APC.
- Ensuring the Graduate School is informed if an Intern/Resident is unable to continue with their studies for personal, health or other reasons;
- Ensuring the Graduate School is informed of any circumstances that may require an Intern/Resident to request an interruption to study;
- Organising progress assessments at 6 months for all Interns and sending the forms to the Graduate School.

### **2.4. Interns and Residents**

- In common with all RVC students, adhering to the College's Code of Professional Standards, the RCVS Code of Professional Conduct; RVC Code of Practice for Interns and Residents.
- Enrolling with the Graduate School at the start of the programme and ensuring they notify the Graduate School of changes to their contact information, including mobile telephone number, personal email address, contact address and the details of their emergency contact person;
- Familiarising themselves with, and abiding by, health and safety regulations, the relevant progress monitoring procedures and other relevant rules and regulations;
- Consulting the College's guidance on academic misconduct and avoidance of plagiarism, signing a document indicating they understand what plagiarism is and undertaking not to plagiarise;
- Accepting professional responsibility for clinical case supervision and undertaking such investigations, therapeutic measures and surgical procedures as necessary under appropriate supervision/direction;
- Participating in undergraduate and possible postgraduate teaching practice as requested by their supervisor or the Programme Directors;
- Attending such meetings, seminars, tutorials and lectures and preparing written reports as deemed necessary by their supervisor or the Programme Directors;
- All scholars will be expected to give at least one presentation in the year to the department, which can be either be a review, a case report (or series) or research that they are involved with.

- All scholars will be required to present in a journal club to their peers
- Interns - Giving consideration to undertaking a small research project although this is not an essential part of the programme. *Typically this would be a retrospective study, and might be part of a larger project already underway;*
- Formally assigning all IP that they may generate in the course of their studies to RVC. *In return, Scholars will be able to benefit from the same incentives and rewards as if they were members of staff. This will be a condition of undertaking commercially sensitive projects as a postgraduate student at RVC;*
- Being prepared, throughout the programme, to receive, give due consideration to and, where appropriate act upon, feedback about their performance in all aspects of their studies, including academic ability, clinical skills, teaching and research (*where appropriate*);
- Interns - Completing in a timely manner the paperwork for, and attending and passing a formal progress review after 6 months
- Discussing any outside professional activity(ies), paid or otherwise, with their supervisor and/or the Programme Directors and gaining their approval before undertaking the activity(ies), which must not interfere with their scholarship duties;
- Securing the Programme Director(s) permission before accepting any offer of paid work during the period of study; ensure any paid work is processed through payroll, is subject to employment law and follows HR requirements, policies and guidelines;
- Participating in College activities, as and when asked to do so by their Head of Department.

## **2.5. MVetMed/PGDip VCP {and other} PG Course Management Committees**

- For terms of reference and Committee business please see the Committee handbook at:  
<http://www.rvc.ac.uk/about/the-rvc/governance-policy-legal/academic-committees>

## 2.6. Residency Supervisors

Residents will have one primary clinical supervisor and one (different) research supervisor although where appropriate a clinical supervisor may fulfil both roles. The primary supervisor will accept the responsibilities and fulfil the criteria laid out below. S/he is ultimately responsible for the supervision and administration of the Resident's progression. They should:

- Be current members of permanent academic staff *and* normally have completed any period of probation
- Hold the target professional qualification
- Have a \*good record of supervising Resident's *evidenced by previous scholars having successfully completed an RVC Masters degree and gaining their specialist qualification*

*\*Inexperienced supervisors may be part of a supervisory team but should not normally be the primary supervisor*

A supervisor may be prevented from further supervision if s/he ceases to satisfy one or more of the above criteria.

### Responsibilities of Residency supervisors

#### *Guidance*

- Providing Residents with encouragement, support and feedback on their progress;
- Advising Residents, or ensuring they have received guidance, on all relevant aspects of their clinical or pathology service work and on research<sup>1</sup>;

---

<sup>1</sup>Including: research techniques, standard of work required, planning of research programme, facilities available to support the research, attendance at training

- Providing advice on scheduling of work (and where appropriate, choice of Masters modules) so that the Masters degree and target professional qualifications can be achieved;
- Encouraging the Resident to develop transferable skills and helping them to identify relevant courses and meetings at which they can communicate their work to others;
- Introducing the Resident to other clinicians and researchers and to appropriate academic and professional bodies;
- Monitoring the Resident's general welfare, and informing them of sources of specialist assistance where necessary;
- Informing the head of service if alternative supervisory arrangements are needed for reasons of absence;
- Informing the Graduate School if the Resident is unable to continue with their studies for personal, health or other reasons;
- Informing the Graduate School of circumstances that may require the Resident to request an interruption to study which will alter their registration status;
- If it is anticipated that the Resident will require a prolonged period of absence from their studies, advising them about the impact on their ability to meet the requirements of their target professional qualification.

---

courses, conferences, seminars etc., publication of findings, plagiarism, intellectual property rights, health and safety regulations, ethical research and the Animals (Scientific Procedures) Act 1986 and research integrity.

- Informing the Graduate School and the Chairman of PG APC on what adjustments to the planned programme of study will be required to take account of a prolonged interruption.

### *Meetings*

- Meeting the Resident *\*formally at no less than twelve week intervals, allowing adequate time for formal meetings and ensuring that brief written meeting notes are kept (asking the Resident to send an e-mail summarising the main points of the discussion is a good way of ensuring that both scholar and supervisor are in agreement about the meeting content)*. Meetings with a research supervisor can be less frequent in year 1.

*\*Note that informal meetings between Residents and supervisors are expected to take place with much greater frequency;*

- Where there is joint supervision, agreeing with the Resident and the other supervisor(s) the division of responsibility between the supervisors;
- Advising the Resident, where appropriate, on future career development;

### *Feedback and Progress*

- Providing constructive criticism (in writing or verbally) on written work such as CRIS or other reports and letters to referring vets;
- Monitoring the Resident's progress, advising them on the adequacy of progress and the standard of their work, and arranging supportive measures or actions where appropriate;
- Arranging progress assessment meetings in accordance with the Assessment & Award regulations.

## 2.7. Residents

- In common with all RVC students, adhering to the College's Code of Professional Standards, the professional standards as set out by their specialty board and the RCVS Code of Professional Conduct;
- Reading the College's guidelines on academic misconduct and avoidance of plagiarism, signing a document indicating they understand what plagiarism is and undertaking not to plagiarise;
- Familiarising themselves with, and abiding by, health and safety regulations, College policy on good research practice, research with integrity, ethical research and the Animals (Scientific Procedures) Act 1986, progress monitoring procedures and other guidelines and regulations relevant to their programme of study;
- Reading the research integrity guidelines and undertaking the on-line research integrity training within 3 months of registration;
- Assigning all IP that they may generate in the course of their studies, to RVC. *In return Residents will be able to benefit from the same incentives and rewards as if they were members of staff. This will be a condition of undertaking commercially sensitive projects as a postgraduate student at RVC;*
- Accepting professional responsibility for clinical case supervision and undertaking such investigations, therapeutic measures and surgical procedures as necessary under the supervision/direction of their supervisor;
- Participating in undergraduate (and possibly postgraduate) student teaching as directed by their supervisor;
- Attending such meetings, seminars, tutorials and lectures and preparing written reports as deemed to be necessary by their supervisor;

- Maintaining regular contact with their supervisors throughout their training scholarship in order to discuss their programme of study and progress. *Residents are expected to take the initiative in arranging meetings with their supervisors;*
- Being prepared, throughout the programme, to receive, give due consideration to and, where appropriate act upon, feedback about their performance, including their academic work, clinical skills and research;

**The detailed responsibilities of the Resident include:**

***Registration and Progression***

- Registering annually with the Graduate School;
- Ensuring they inform the Graduate School of any changes to their contact information, including mobile telephone number, personal email address, contact address, and the details of their emergency contact person;
- Notifying the Graduate School of any changes of circumstance agreed using the appropriate forms signed by the supervisor (*There is a change of registration status form on the Graduate School site on RVC Learn*);
- Adhering to the #schedule of milestones published annually on RVC Learn: Home>MVetMed>Completing the MVetMed – Course Handbook, Forms & Policies>MVetMed Milestones Timetable<sup>2,3</sup>

---

<sup>2</sup> To be pro-rated for 4 year Residencies in which there are additional training elements that are to be undertaken with a non-academic partner.

### *Good research practice and compliance*

- Consulting their supervisor(s) before submitting any work for publication;
- Acknowledging, normally by co-authorship, supervisor(s) and other colleagues who have made a significant practical or intellectual contribution to the work described in any publication or presentation;
- Discussing any outside professional activity(ies), paid or otherwise, with their supervisor and HOD and gaining their approval before undertaking the activity(ies); these must not interfere with the duties and requirements of their scholarship programme scholarship<sup>4</sup>;
- \*Agreeing with their supervisor the dates of holidays which will be taken with regard to clinical rotas.
- Securing their supervisor's permission before accepting any offer of paid work during the programme of study; ensure any paid work is processed through payroll, is subject to employment law and follows HR requirements, policies and guidelines.

---

<sup>3</sup> Resident's registered on a Masters course other than the MVetMed will need to adhere to the programme requirements for module attendance and timetables for assessments, submission of research project reports and oral examinations.

<sup>4</sup> Residents who are employees will need the approval of their employer.

### 3. Progress Assessment

#### Interns

The progress of Interns will normally be reviewed after six months where in addition to passing the 6 month assessment, at least one module will need to have been passed. Interns may be required to attend an interim progress assessment if deemed necessary by the Programme Director(s).

*The outcome of a progress assessment can be any of the following:*

1. Satisfactory progress: the Intern should proceed
2. Satisfactory progress with advice: the Intern should proceed
3. Progress of concern: Intern to be placed on probation for a period of not less than one month and not greater than three months after which there will be a further assessment
4. Intern programme terminated with immediate effect. This can occur with or without referral to the Professional Requirements procedure.

#### Residents

Normally Residents will be appraised annually but there may be a requirement for additional progress assessments; see the requirements to progress section of the MVetMed Assessment & Award Regulations. These and copies of the necessary forms can be found on the Graduate School and/or MVetMed sites of RVC Learn.

At progress assessment an Intern or Resident will be judged against the standards and achievements appropriate for the stage reached in their clinical training {and Masters degree for which a Resident is registered}. Scholars experiencing difficulties with their studies should discuss these in the first instance with their supervisor(s), a programme (Intern) or Masters course director (Resident). They may

also contact the Graduate School or Chairman of PG APC (see section 5).

#### **4. Change of supervisor and other grievances**

A Resident or Intern wishing to make representations about the quality of {any aspect of} their supervision should initially discuss the matter with their supervisor. Should they not feel able to do so themselves, they may involve a third party. If the matter cannot be resolved they should speak to the Head of the Graduate School who will work with the Head of Department or other member(s) of academic staff within the clinical or pathology service in trying to resolve the situation. If it is demonstrated that a supervisory relationship has broken down irrevocably, the supervisor may be changed through this procedure although the scholar must recognise that this may not always be possible.

The criteria that will be used in deciding whether a change of supervisor will be allowed or not are as follows:

- Objective evidence (e.g. from progress assessment meeting or PG APC meetings) that (a) the supervisor is not fulfilling their responsibilities as set out in the Code of Practice or (b) the relationship between the supervisor and the scholar has irretrievably broken down;
- Availability of an appropriately skilled/qualified alternative supervisor(s);
- The source of funding for the training scholarship if the scholar is supported by an external award made to a named supervisor;
- Objective evidence (e.g. from a PG APC meeting, feedback from co-workers on clinical/pathology skills at progress assessment, MVetMed (or other Masters) modules attended and marks

awarded) that the scholar is performing sufficiently well to continue with their programme of study;

All other grievances will be considered through the College's normal \*Complaints procedures. Complaints specifically about bullying or harassment should be addressed by following the procedure outlined in the College's \*Dignity at Work policy.

Any Intern or Resident whose progress is judged to be unsatisfactory at a progress assessment meeting and who is required to leave the programme has the right to \*appeal.

\*The relevant policies/procedures can be found at:

<http://www.rvc.ac.uk/about/the-rvc/academic-quality-regulations-procedures>

## **5. Representation of Interns and Residents**

Residents and Interns are represented at College level on the MVetMed Course Management Committee or by year representatives on other Masters' CMCs, the Hospital Operations and Heads of Service meetings. They are also represented at Academic Board and other relevant College Committees through the Postgraduate Presidents or their nominees. Residents and Interns should be invited to departmental meetings unless there is another established and effective channel for the consideration of their views.

# **APPENDIX 7.1**

## **GUIDELINES ON PERSONAL RELATIONSHIPS AT WORK**

This guide is intended to provide information to employees regarding personal relationships within the College, in order to avoid any perceived, actual or potential conflicts of interest or misuse of authority.

### **1 INTRODUCTION**

- 1.1** The College values and relies upon the professional integrity of its employees, particularly where an employee has supervisory responsibilities or a professional relationship with a student.
- 1.2** So that employees conduct themselves and are perceived to conduct themselves in a professional manner, it is necessary to recognise and take account of personal relationships which might affect working relationships.
- 1.3** The College is committed to promoting equal opportunities and eliminating discrimination. Accordingly, these guidelines will be applied fairly and consistently and with due regard to equality of treatment.
- 1.4** The guidelines do not form part of employees' contracts of employment. They will be kept under review and may be revised from time to time.

### **2 SCOPE AND PURPOSE**

- 2.1** The guidelines apply to all individuals working at all levels and grades, including full time and part-time employees.
- 2.2** In the context of these guidelines:
  - (a) a 'personal relationship' is a personal relationship which is:

- (i) a family relationship;
- (ii) a business/commercial/financial relationship; or
- (iii) a sexual/romantic relationship; and

(b) a 'working relationship' is any situation in which individuals will interact in the course of their day-to-day work. This includes situations where one of the individuals in the personal relationship is not an employee of the College. For example, they might be an agency worker, or work for a contractor.

**2.3** The guidelines apply to personal relationships between:

- (a) employees of the College;
- (b) an employee of the College and an agency worker, casual worker, consultant, contractor or supplier, and/or
- (c) an employee of the College and a current student of the College,

**2.4** Although most social and personal relationships need not present a difficulty, it is recognised that there will be certain circumstances where employees may need to avoid taking certain decisions or undertaking certain roles in order to protect themselves and the College from any potential allegations of impropriety, unfair bias, abuse of power or conflict of interest.

**2.5** These guidelines are therefore intended to:

- (a) provide guidance in areas where a personal relationship overlaps with any working relationship and particularly where it might cause:
  - (i) a conflict of interest (for example where an employee's personal interests clash with their professional obligations);
  - (ii) breach of confidentiality;
  - (iii) unfair advantage; or
  - (iv) allegations of abuse of power;

- (b) ensure that an employee in a personal relationship is not open to allegations that it has affected a working relationship; and
- (c) enable the situation to be managed, if considered necessary, with a view to avoiding difficulties within any working relationship.

### **3 PERSONAL RELATIONSHIPS BETWEEN EMPLOYEES AND/OR AGENCY WORKERS, CASUAL WORKERS, CONSULTANTS, CONTRACTORS OR SUPPLIERS**

**3.1** To maintain professionalism and avoid embarrassment to others, an employee in a personal relationship should avoid public displays of affection in the workplace. This includes, for example, kissing, touching and holding hands.

**3.2** Where an employee is in a line management or supervisory position, that employee must not be involved in any recruitment, appraisal, promotion, disciplinary or grievance process or in any other process involving the other. Where authorisation is required for any financial matters e.g. expenses claims/salary changes or allocation of external funding for an employee with whom a personal relationship has been declared, additional independent authorisation must be sought.

**3.3** When an employee has been in a personal relationship, but it has come to an end, they must throughout remain professional and ensure that the ending of the relationship does not affect their work or their working relationships.

**3.4** Employees should at all times conduct themselves in a manner consistent with their role and duties and the College's policies and procedures (including those relating to equality and diversity and dignity at work).

#### **4. PERSONAL RELATIONSHIPS BETWEEN EMPLOYEES AND CURRENT STUDENTS**

- 4.1** It is vital that trust and confidence exist between employees and students to ensure that students maximise their learning experience. The professional relationship between a student and an employee of the College is a central part of the student's educational development. A personal relationship could compromise this professional relationship and damage the teaching and learning environment for other students and employees.
- 4.2** Employees are strongly discouraged from entering into a personal relationship with a student they are responsible for teaching, tutoring, supervising or assessing. It would be considered unprofessional for an employee to seek actively to initiate a personal relationship without regard to the problems that may ensue.
- 4.3** If a consensual personal relationship does develop between an employee of the College and a student they are responsible for teaching, tutoring, supervising or assessing, the employee must declare the relationship to their line manager without delay. Any such disclosure will be treated sensitively.
- 4.4** The College reserves the right to discontinue the responsibility of the member of staff for teaching, tutoring or supervising a student with whom they have a personal relationship.
- 4.5** In no circumstances will an employee be permitted to take part in the assessment of a student with whom they have a personal relationship.
- 4.6** In the event that the supervision of a Post-Graduate student involves two employees who are in a personal relationship, a third supervisor should always be assigned.

## **5. CONFIDENTIAL DECLARATION OF A PERSONAL RELATIONSHIP IN A LINE MANAGEMENT OR SUPERVISORY WORKING RELATIONSHIP**

- 5.1** Where a personal relationship exists or develops within a line management or supervisory working relationship, the line manager's manager must be informed. Upon receiving this information, the line manager should seek further guidance from Human Resources.
- 5.2** Employees may be reluctant to disclose their personal relationship, but it is important that the College is able to assess any risk of conflict of interest, unfair advantage or breach of confidentiality and discuss with employees concerned, ways in which such issues can be avoided.
- 5.3** Information relating to a disclosure of a relationship will be handled with confidence. Employees will be treated with sensitivity during this process.
- 5.4** Upon learning of the personal relationship, the College will consider what, if any, steps need to be taken. Due regard will be given to the potential effect of the relationship on others in the College, any potential negative effect on the workings of a department or team and the professional conduct of the College's business.
- 5.5** The employee concerned will be consulted with a view to reaching agreement regarding the appropriate action. No action will be taken without first discussing it fully with the employee concerned.
- 5.6** The College may, at its discretion, make alternative management arrangements. This may include transferring some of an employee's duties or transferring an employee to another department. Any actions to be taken will be confirmed in writing to any employee concerned.
- 5.7** In no circumstances will an employee be permitted to appraise another employee with whom they have a personal relationship, nor will they be permitted to sign off expenses or other administrative documentation.

- 5.8** If it is considered necessary to inform other employees about the personal relationship (for example, in order to explain a change in management arrangements) this will be discussed first with the employee concerned.
- 5.9** If the circumstances of the personal relationship change, the employee must also advise their line manager, who may seek advice from Human Resources. The previously agreed actions will be reviewed in consultation with the employee and any further appropriate action taken.

## **6 PERSONAL RELATIONSHIPS NOT IN A LINE MANAGEMENT OR SUPERVISORY WORKING RELATIONSHIP**

- 6.1** Even where there is no managerial/supervisory relationship with an employee in a personal relationship, there may still be a risk of a conflict of interest, breach of confidentiality or unfair advantage being perceived to be gained from the overlap of a personal and working relationship.
- 6.2** Where there is any possibility of conflict of interest, breach of confidentiality or unfair advantage, the relationship should also be declared as above.
- 6.3** An employee should seek the guidance of Human Resources if in any doubt as to whether or not there is or might be a risk of a conflict of interest, breach of confidentiality or unfair advantage.
- 6.4** Upon learning of the personal relationship, the College will consider what, if any, steps need to be taken, as above.
- 6.5** The line manager/head of department, in consultation with HR, may consider transferring one party or both parties, making alternative line management or supervisory arrangements or implementing other appropriate arrangements to eliminate the conflict of interest, depending on the circumstances. In very rare circumstances, such alternative arrangements may not be feasible and the College may then have to consider dismissing one or both parties.

## **8. FAILURE TO DISCLOSE A PERSONAL RELATIONSHIP IN ACCORDANCE WITH THESE GUIDELINES**

- 8.1** In the event that an employee fails to declare a personal relationship where required to do so in accordance with these guidelines, or where it would have been prudent to do so, disciplinary action will be taken. Serious cases will be dealt with as gross misconduct.

## **9. HARASSMENT & BULLYING**

- 9.1** Employees are reminded that unwanted attention given by either party, whether at work or outside work (for example, when a personal relationship has ended) could constitute bullying and/or harassment. In such cases disciplinary action may be taken. Serious cases will be dealt with as gross misconduct.

## **10. DATA PROTECTION**

- 10.1** Any personal data provided to the College as a result of this policy will be treated in accordance with the principles set out in the Data Protection Act 1998.

## **11. FURTHER GUIDANCE**

- 11.1** Employees may seek further guidance, on a confidential basis, from the HR department.

## Appendix 7.2

### Insurance Cover for RVC students travelling overseas

#### 1. Personal Accident (PA) and Travel Insurance

All RVC students, who are undertaking placements, study or research *overseas* (i.e. away from their country of residence \* ) as part of their registered degree programmes are protected by the College's Personal Accident & Travel Insurance.

For details of the Sums Insured for PA and Travel, please see [Appendix 1](#) below.

**1.1 Personal Accident (PA) Insurance:** provides compensation for Accidental Death, loss of limb / sight / speech / hearing and for total or partial permanent disablement.

**1.2 Travel Insurance:** provides protection for medical and other Emergency travel expenses including evacuation; personal liability; personal property; money; cancellation / rearrangement etc. of travel; hijack.

##### 1.2.1 It includes:

- travel to a student's country of domicile
- it may include cover for some incidental leisure travel undertaken whilst overseas \*\*

##### 1.2.2 It does not include cover:

- if the travel is only for reasons of a leisure or holiday trip (i.e. not for educational reasons)
- for travel for any purpose within the UK.

**1.2.3 Hazardous Activities** (e.g. climbing; hang-gliding; scuba-diving etc.) intended to be undertaken whilst overseas must be declared to insurers in advance.

##### Notes:

\* Under the definitions for this insurance, the country of residence is deemed to be the UK for any student who is undergoing education in the UK.

\*\* The period of incidental leisure travel permitted under the insurance is calculated according to the length of the period of the educational aspect of the trip. For details, please see [Appendix 2](#) below.

## 2. Public Liability Insurance

All RVC students, who are undertaking placements, study or research away from RVC facilities (whether in the UK or abroad) as part of their registered degree programmes are protected by the College's **Public Liability Insurance**

**Public Liability Insurance** provides cover for accidental death of or injury to any third-party person &/or accidental damage to property (which includes animals under English Law) for which the student &/or the College has a liability at law or are found to be legally liable.

### **Please note:**

- If a student is involved in an event giving rise to a public liability claim and was, at the time of the event, under the direction and control of another organization (e.g. placement provider, veterinary practice, laboratory etc.) then liability for any compensation to a third party will remain the responsibility of the other organization regardless of whether or not they are insured. However students are strongly advised to check that placement providers etc. also have appropriate **public liability insurance** in place.
- Public Liability insurance is likely not to apply if the student acts in a wholly unpredictable, irresponsible or malicious manner sometimes described in legal terms as "on a frolic of his or her own". Should this be the case the individual student may be held personally liable.

Appendix 1

<b>Category:</b>	<b>D</b>
