

ANNUAL QUALITY IMPROVEMENT REPORTING PROCESS

1. PURPOSE

The purposes of this procedure are:

- (i) to enable the College to satisfy itself that its courses are achieving their objectives
- (ii) to confirm the adequacy of quality control mechanisms
- (iii) to identify significant strengths and weaknesses
- (iv) to identify and disseminate good practice
- (v) to give praise where it is due
- (vi) to monitor implementation of the College's academic policies

2. SCOPE

This procedure covers all taught courses, both undergraduate and postgraduate. It does not cover research degrees or non-award-bearing continuing education.

Monitoring and evaluation of higher education is an essential process within providers, forming a fundamental part of the academic cycle. It can, and should, look at all aspects of the higher education experience. All higher education providers are involved in course monitoring and review processes as these enable providers to consider how learning opportunities for students may be improved.

For details of the mandatory expectations for quality and standards in relation to the monitoring and evaluation of higher education, please read the advice and guidance available on the Quality Assurance Agency website <https://www.qaa.ac.uk/quality-code/advice-and-guidance>.

This procedure is designed to ensure that the College continues to meet the mandatory expectations and core practices in the UK Quality Code for Higher Education. <https://www.qaa.ac.uk/quality-code>.

4. PROCEDURE

Annual Quality Improvement Reports (AQIRs)

There is a standard Annual Quality Improvement Report (AQIR) form which must be completed by each Course, Elective, Rotation Director and Year Leader where applicable, except that in the case of degrees run under the auspices of the University of London Worldwide, their Annual Programme Planning and Review and Reporting form will be used.

Each AQIR form normally has three appendices items, which are to be considered by the author with forward looking actions recorded as necessary:

- Appendix 1 Course Statistics
Admissions/Contextual/Progression/Achievement/Destination
- Appendix 2 Student Survey results including Graduate and Employer Survey results where relevant
- Appendix 3 External Examiner Report

The Course Directors for the BVetMed and BSc Bio Sci suite of courses are asked to complete an overview AQIR to ensure that course-wide student survey data and external examiner reports have been reviewed with forward looking actions recorded as necessary.

The Teaching Quality Committee has a sub-group for considering AQIRs, this is called the Annual Quality Improvement Group (AQIG). The AQIG meets and receives draft AQIRs with respect to considering the following items:

- (i) identify any relevant comparisons within and between Courses of study
- (ii) identify any College-wide issues arising from the AQIRs
- (iii) alert the College as a whole to any obstacles which are preventing a course from achieving its objectives
- (iv) assure the College that the AQIRs have been given appropriate scrutiny
- (v) trigger an interim review of the course if it is felt to be underperforming

After the AQIG has met, the Course, Elective, Rotation Director and Year Leaders have an opportunity to resubmit a final version of their AQIR to the Academic Quality Administrator for publication on the intranet and to the relevant Course Management Committee for consideration.

The Academic Quality Manager and Chair of Teaching Quality Committee produce an overall Annual Summary of all AQIRs to cover the items i-v above. Items of concern, good practice,

and actions going forwards are documented. This summary is considered by the Teaching Quality Committee, the Learning, Teaching and Assessment Committee, Academic Board and RVC Council.

The Academic Quality Administrator publishes the AQIRs on the intranet [here](#).

The process for submitting AQIRs has been tabulated in figure 1 on page four. Timings for the submission of AQIRs can be seen in figure 2 on page six.

It is necessary for accredited Courses to submit annual monitoring reports to the relevant professional bodies. This is in addition to provision of the AQIR.

All required and/or recommended actions from Periodic Review reports are to be inserted into the Annual Quality Improvement Report action plan by the Course Director, once the Periodic Review report has been approved by the Teaching Quality Committee and Academic Board. Actions will be monitored through the Annual Quality Improvement Report process. Courses might be excused from being required to submit an AQIR for the current academic year if the Periodic Review of the course takes place at the end of a that academic year/cycle.

Membership of the TQC Sub-group for the consideration of Annual Quality Improvement Reports:

Required to attend:

- TQC Chair, Deputy Chair (Chair) or their nominee
- Academic Quality Team member (Secretary)
