

GRADE CONVERSION NTU to RVC COMMON GRADING SCHEME

This is the marking scheme for individual pieces of work and not the degree classification scheme. The latter is calculated through the aggregation of marks from the full range of assessments undertaken by a candidate.

The following table indicates how grades (marks) awarded under the Nanyang Technological University (NTU) grading system (the Grade Point Average System, GPA) should be mapped to the RVC Common Grading Scheme (whereby grades are given against a seventeen-point grading scale, with associated percentages)

NTU Letter Grade	NTU Grade Point	RVC Mark (%)	Descriptor on RVC Common Grading Scheme
A+	5.00	90	Outstanding Answer
A	5.00	82	Excellent Answer
A-	4.50	75	Extremely Good Answer
B+	4.00	68	Very Good Answer
B	3.50	65	Good Answer
B-	3.00	62	Quite Good Answer
C+	2.50	58	Very Sound Answer
C	2.00	55	Sound Answer
D+	1.50	48	Marginally Deficient Answer
D	1.00	42	Deficient Answer
F	0.00	35 (Unqualified Fail*)	Poor Answer

*N.B. RVC Grade Point 35 constitutes an Unqualified Fail for NTU Grade F, as this constitutes a requirement for the student to re-sit the module.
