

ROYAL VETERINARY COLLEGE GENERAL REGULATIONS

FOR STUDY AND AWARDS

1. Degrees

- 1.1 The Royal Veterinary College (RVC) offers courses leading to the awards of the University of London, in veterinary and other science related subjects, and the awards of the Royal College of Veterinary Surgeons and the RVC itself.

2. Admission

- 2.1 Admission to the RVC is subject to the requirement that the student will comply with the Regulations and Procedures of the College.
- 2.2 The RVC authorities reserve the right to refuse admission to the College to any applicant, and to require any student to withdraw.
- 2.3 All programmes are delivered in English. An applicant for admission to any programme may be required to demonstrate proficiency in the English language.
- 2.4 Where a student seeks to commence study before the age of 18, admission will only be permitted where parents or guardians agree to provide supervision that has been agreed by them and the RVC to be appropriate for a minor studying at the College.
- 2.5 On registration, a student must furnish the Registry with the original of an official document, normally a birth certificate or passport, confirming their full name and date of birth. The name under which a student is enrolled shall be the name under which any letter, certificate or award will be issued in respect of that student. Any request to record a change of name shall be made to the Registry and must be supported by official documentary evidence.
- 2.6 The RVC reserves the right to require original, official evidence of academic entry

qualifications at any time. Any student who secures admission to the College on the basis of qualifications, documents or statements which are subsequently found to be false may have their registration terminated.

- 2.7 The RVC reserves the right to make offers subject to satisfactory occupational health reports.

3. Registration

- 3.1. All RVC or University of London awards must be designed and delivered such that their normal form of operation is within the minimum and maximum periods of registration specified below.
- 3.2. All students must complete their study within the maximum period of registration for each award.
- 3.3. Exemption from study can be given at admission for a maximum of two thirds of the normal form of operation or credit value where a student has prior relevant qualifications, experience or credit. Each case must be considered according to the RVC's procedure for admissions with the recognition of prior learning ("APL and APEL").
- 3.4. All students must enrol for each year of each course by the due date and provide all reasonable information requested.
- 3.5. Where relevant, all students must register for each module by the due date.
- 3.6. A student may not concurrently register for two full time courses at the RVC or at the RVC and another institution.
- 3.7. A student may concurrently register for one full-time and one part-time course at the RVC or at the RVC and another institution but approval to do so must be given by the Academic Registrar following written request from the student prior to enrolment on any RVC course.
- 3.8. A student may concurrently register for two part-time courses at the RVC or at the RVC and another institution. Registration for more than two part-time courses at the RVC or at the RVC and external institutions requires approval by the Academic Registrar following written request from the student prior to enrolment on any RVC course.
- 3.9. For taught courses the period of registration includes all periods of deferred assessment. Periods of interruption agreed with the RVC will not count towards maximum registration periods (see 5.5)
- 3.10. Where a taught programme contains linked awards (e.g. PG Certificate/PG Diploma/MSc) the specific programme may specify a maximum period of registration that is less than the sum of the maxima for the separate awards.
- 3.11. For research degree programmes (MRes, MPhil, PhD, Professional Doctorate) the

period of registration is considered to be the time until submission of the thesis and excludes periods of interrupted study.

3.12. Minimum and Maximum registration periods:

Award	Full Time Programmes		Part Time Programmes	
	Minimum	Maximum	Minimum	Maximum
Certificate	1 academic year	3 academic years	2 academic years	5 academic years
Diploma	2 academic years	4 academic years	3 academic years	6 academic years
FdSc	24 months	60 months	3 academic years	6 academic years
BSc (not intercalated)	2 academic years	5 academic years	4 academic years	6 academic years
Intercalated BSc	1 academic year	2 academic years	Not available	Not available
Graduate Diploma	1 academic year	2 academic years	18 months	60 months
BVetMed (excluding Gateway year)	48 months	8 years provided that: <ul style="list-style-type: none"> There is not more than 3 years from the start of the course to completion of the pre-clinical phase (Years 1 & 2) There is not more than 5 years from the start of the clinical phase (Year 3) until final examination 	Not available	Not available
MSci	3 academic Years	6 academic years	4 academic years	7 academic years
MSc	12 months	36 months	24 months	48 months
MRes	12 months	24 months	24 months	36 months
MVetMed	3 academic years	+1 academic year longer than CTS contract. Typically 4-5 academic years.	N/A	N/A
Part 1 Postgraduate Certificate ³			4 months	24 months
Part 2 Postgraduate Certificate ³			8 months	24 months
Postgraduate Certificate	3 months	12 months	12 months	24 months
Postgraduate Diploma	6 months	24 months	12 months	36 months
MPhil	24 months	48 months	36 months	60 months
PhD	24 months	60 months	48 months	96 months

DProf	Not available	Not available	48 months	96 months
-------	---------------	---------------	-----------	-----------

4. Tuition Fees and Debt

- 4.1 Tuition fees are payable in full at the start of the session. Students whose fees are not paid for them by the SLC or similar agency must make effective arrangements to ensure prompt payment of fees at the due date.
- 4.2. The RVC reviews its tuition fees and fee policy annually. Increases in the costs of delivery of programmes means that tuition fees are likely to be subject to annual increases and all students are, therefore, advised to plan their finances assuming that this will be the case. Tuition fees are formally approved by the RVC Council and are published on the College website in September of the preceding academic year.
- 4.3. The RVC shall publish annually its tuition fee payment schedules and refunds policy.
- 4.4. A student who is in debt to the RVC for tuition fees, will not be permitted to progress to the next academic year or to receive their degree until a payment plan or full payment has been agreed with the Director of Finance
- 4.5. A student who is in tuition fee debt to the RVC and breaks their agreement with the Director of Finance may have their registration terminated, at the discretion of the Principal.
- 4.6. Debts arising from fines, accommodation or other purchases from the RVC will be subject to commercial debt recovery procedures. Students with such debts will not be permitted to attend a Graduation Ceremony until the debt is paid.

5. Attendance and Progress

- 5.1 Students are required to enrol at the beginning of each year of study.
- 5.2 Students are expected to engage fully with their programme by attending scheduled teaching/accessing online learning materials/engaging with supervisors as appropriate to their course. If students are unable to attend/engage for more than 1 week they must communicate the reason for absence in writing to Academic Registry or the Graduate School as appropriate and to report on their return. In cases of illness a medical certificate may be requested. Students studying in the UK on a Student Route Visa and those in receipt of a US Federal Loan have additional attendance requirements in order to meet the expectations of UKVI and/or the USA Department for Education.
- 5.3 The RVC reserves the right to require any student to undergo a medical examination either as a condition of admission, or at any time during their studies, to inform the decision by the College regarding fitness to study and/or practice. A student who has been absent as a result of a serious illness, or an infectious or contagious disease, will normally be required to produce a medical certificate confirming their current health status to inform the decision by the College regarding return to study and/or practice.
- 5.4. Alternative patterns of study, including deferral of examinations and interruptions,

where a student cannot meet the normal pattern of study due to illness or other documented personal circumstances must be approved through the Student Performance and Development Procedures (SPDP).

- 5.5. We recognize that students may need to interrupt their studies to manage significant life events such as parenthood, illness or for other personal reasons. All periods of interruption must be agreed via SPDP and will not normally be agreed for more than one year per programme.

If SPDP are requested to exceptionally agree an additional interruption, it will also be necessary for the Course Director/Supervisor to assess the prior learning of the student to ensure that overall programme learning outcomes can still be met within the registration limits of the programme at the intended return date. This assessment must be completed prior to approval of the additional interruption.

Periods of approved interruption will not be counted against the maximum periods of study permitted in 3.10.

FdSc and BSc Veterinary Nursing students must be mindful of RCVS requirements to complete the registerable part of the programme within 6 years of student enrollment with the RCVS (including periods of interruption). Veterinary Nursing students must also be mindful that they cannot undertake programme placements required for RCVS registration whilst their RVC studies are interrupted as per RCVS student veterinary nursing registration requirements.

Students studying for the award of the BVetMed are permitted to undertake pre-clinical and clinical Extra Mural Studies (EMS) whilst interrupted as they remain BVetMed students (albeit inactive due to interruption). All interrupted students wishing to undertake EMS during their interruption period must have express permission to do so via SPD and the Placements Office.

6. Intercalation Study on the BVetMed

- 6.1 A student on the BVetMed will be permitted to intercalate for a maximum of five years as follows:
- i. for one year for a BSc;
 - ii. for one year for a MSc or MRes
 - iii. for one year for the Certificate in Work Based Learning and Research;
 - iv. for four years for a PhD or MPhil; or for any combination of these awards.
- 6.2 Intercalation will normally take place after the Second Year of the BVetMed. Intercalation after the Third Year will require approval by the SPDP. Following intercalation a student shall be re-admitted to the Third Year (or where appropriate the Fourth Year).
- 6.3 Whilst intercalating, students are not normally considered as BVetMed students as they are actively studying an alternative programme until re-enrolment on the BVetMed at the start of the relevant academic year. Intercalating students are therefore unable to undertake clinical EMS.
- 6.4 Time spent in intercalation will not be counted against the maximum periods of interruption of study permitted in 3.10.

7. Transfer Regulations

- 7.1 Applicants who wish to transfer to a course offered by the RVC will be required to apply to the College via usual application procedures. All claims for exemption from credit will be managed during the admissions process in line with our [Assessment of Prior \(Experiential\) Policy](#).
- 7.2 The Academic Board will design and approve procedures permitting the transfer of existing RVC students between taught courses and research degree programmes offered by the RVC.
- 7.3 The procedures can only be used for students who are either:
- (i) seeking to change their course of study to a course leading to the same or a lower level of award, or
 - (ii) a course leading to a higher award but on a related award pathway.
- 7.4 A student may only transfer provided that the registration period for the new course, including the period taken for previous study, is not exceeded.
- 7.5 Once a student has transferred to a new course they will be registered for that particular award and title and will gain that award and title upon successful completion of the course.
- 7.6 A student can seek to transfer back to their original course of study through the usual transfer procedures providing that they did not fail the original course prior to transfer. In the case of transfer back to the BVetMed, the intervening study can be considered as intercalation for the purposes of calculating registration period and granting of awards.

8. Amendments to Examinations and Programme Provision

- 8.1 Any amendment to the details of a degree examination must be announced at least 3 months before the date of that examination.
- 8.2 When any significant change to programme specifications or assessment regulations is proposed the students who will be directly affected by such a change will be consulted, through their elected representatives on academic committees. Any subsequent significant change will be notified to students at least 12 months prior to the implementation of the change. Where an amendment is proposed which would significantly change the conditions under which students were taught, examined or allowed to progress during their current year or stage of study, then the consent of students who would be directly affected by such a change shall normally be required prior to its implementation.

9. Examinations and Assessment

The Academic Board will approve and publish General and Course Specific Assessment and Award Regulations for Taught Courses and assessment requirements for Research Degrees.

10. Appeal

Students who according to the assessment or progression regulations for the programme concerned are required to relinquish study for their chosen award will have a right of appeal.

11. Revocation of Awards

The College may revoke the award of any degree, diploma or certificate which it has granted, and all privileges connected therewith, if it shall be discovered at any time and proved to the satisfaction of the Principal that:

- I. there was an administrative error in the award; or
- II. subsequent to the award, a Board of Examiners, having taken into account information which was unavailable at the time its decision was made, determines that a candidate's result no longer permits the making of the award.

12. Professional conduct and compliance with regulations

- 12.1 The RVC may at any time discipline, suspend or exclude any student who is deemed to be acting in a manner which jeopardises animal welfare or the health and safety of staff, students or clients or who does not meet the expectations outlined in the RVC Charter using the College's Disciplinary (Misconduct) or Professional Requirements procedures.
- 12.2 Students may not bring animals on to the campus unless they are either a volunteer animal for designated purposes of teaching or research or as a hospital patient or assistance animal. Students must observe any RVC policies or procedures concerning the welfare of animals at all times.
- 12.3 Students shall carry their RVC identity card with them at all times when on College premises (including hospitals and SUS rooms) or on placements or visits. The RVC reserves the right to exclude from any College activity or building any student who is unable, on demand, to produce their current identity card to a member of staff of the RVC or authorised security personnel.

13. Rules and Regulations: Publication and Compliance

- 13.1 RVC rules and/or Regulations are published electronically and must be complied with.
- 13.2 Students shall be subject to the RVC Regulations for as long as they are students of

the RVC. Failure to do so may result in disciplinary action using the College's Disciplinary (Misconduct) or Professional Requirements procedures.

- 13.3 A student or group of students may be exempted from any RVC Regulation, either temporarily or permanently, at the discretion of the Academic Board. An anonymized record of any such exemptions will be presented to the Academic Board at the next meeting.
