

## MSc One Health: scheme for converting LSHTM grades to RVC grades

For Academic Year 2013-14 – updated September 2013

The following table indicates how grades (marks) awarded under the LSHTM grading system (whereby individual component grades are marked on a six-point integer grading scale, which may be combined into more fine-grained grade point averages) should be mapped to the RVC Common Grading Scheme (whereby grades are given against a seventeen-point grading scale, with associated percentages).

| Extremely good answer (75%)  | <p><b>Selection and coverage of material:</b> Question answered fully and accurately. Few errors and/or omissions and none of significance. For projects, full and accurate account of task, aims and methods of practical work with few errors and/or omissions and none of significance; where appropriate, sensible speculation, supported by evidence.</p> <p><b>Understanding:</b> Thorough grasp of concepts with evidence of powers of critical analysis, argument and original thinking. Evidence of extensive wider reading of an appropriate nature. For projects, also some critical and/or comparative comment on all observations; clear evidence of original/innovative thinking; published work from authoritative sources used extensively and appropriately; data manipulated and analysed correctly.</p> <p><b>Structure, clarity and presentation:</b> Logical and organised structure with clarity of expression. For projects, very well organised.</p> | Distinction        | Excellent (5)           | <p>Excellent engagement with the topic, excellent depth of understanding &amp; insight, excellent argument &amp; analysis. Generally, this work will be 'distinction standard'.</p> <ul style="list-style-type: none"> <li>NB that excellent work does not have to be 'outstanding' or exceptional by comparison with other students; these grades should not be capped to a limited number of students per class. Nor should such work be expected to be 100% perfect – some minor inaccuracies or omissions may be permissible.</li> </ul> <p><b>Simple general criteria for qualitative work:</b> A comprehensive discussion of the topic giving all relevant information, showing in-depth critical understanding of the topic, going beyond conventional answers, and bringing in additional relevant ideas or material.</p> <p><b>Simple general criteria for quantitative work:</b> All correct.</p> | Distinction          |
| Excellent answer (82%)       | <i>As for 75 but demonstrating an authoritative grasp of concepts with sustained powers of argument, and frequent insights (and for projects, much evidence of original/innovative thinking). Virtually no errors or omissions and none of significance.</i>   | Distinction        | Excellent (5)           |   | Distinction          |
| Outstanding answer (90%)     | <i>As for 85 but with strong evidence of independent thinking throughout and no omissions or factual errors. For projects, also original/innovative thinking, and would be of publishable standard with only minor modifications to content.</i>   | Distinction        | Excellent (5)           |   | Distinction          |
