9. **Consequence of Failure:**
   A candidate who fails the statistics examination will be required to resit at the earliest available opportunity (mark will be capped at 50%). Subsequent failure at the re-sit examination will require the student to meet with the College statistician to discuss the reasons for their poor performance and to identify ways of improving their understanding of statistical methods, which may require referral to the Student Support and Progress Committee and/or Advice Centre, if additional support (e.g. numeracy) is considered necessary. In addition, examiners will be informed of this result prior to the oral examination and asked to question the candidate’s understanding of the data analysis presented in the dissertation.

   A candidate who fails overall at the first attempt shall have a right to resubmit the dissertation and to re-sit the oral examination. In terms of in-course assessment, the candidate can elect to carry forward their mark, but will be given the opportunity to resit the statistics exam (unless this was resat previously), reflective essay and/or poster abstract/presentation. A candidate who fails at the second attempt will be required to relinquish the course; s/he will have a right of appeal as described in College Regulations.

11. **Absence from summative assessments:**
    Where a student has an *allowable* absence, they will be permitted to contact the Course Director to request an extension (in the case of in-course assessment and/or submission of the dissertation) or deferral (in the case of the oral examination).

    An allowable absence is one that is for a significant unforeseeable event such as illness. A student absent for any other reason will be awarded 0 (zero).
