The number of marks allocated to each section of the question will be clearly stated, totaling 10 marks for the whole question. The model answer will state how marks are to be allocated for specific factual answers, or the description or completion of a defined process. Where an answer must be judged more subjectively, the model answer must describe the quality of content, understanding, integration or expression required to attain the marks allocated for that answer. Fractional scores are permitted for each section.

6.3. **Integrated Structure and Function (ISF) Orals**  
Each structured oral examination will be marked out of a maximum of ten marks with students accumulating marks by answering questions of increasing complexity. Highest marks will be obtained by students demonstrating integration of their knowledge.
