

PhD Student Handbook 2023/24

Welcome to The Royal Veterinary College's Graduate School

Dear PhD Student

The Royal Veterinary College has a unique history of innovation in biomedical and veterinary sciences, education and clinical practice. We're delighted that you have chosen to study at the RVC and we hope that you will thoroughly enjoy your time here, acquiring the knowledge and skills you'll need to build a successful and stimulating career.

This handbook is intended to provide you with key information about your studies, the College and its many resources but if you can't find what you're looking for, don't hesitate to ask one of us.

We're looking forward to working with you and wish you every success with your research.

Head of the Graduate School (Academic):

Prof Ken Smith

Email: ksmith@rvc.ac.uk

Heads of Postgraduate Student Administration:

Mrs Lisa Matamala-Shaw

Email: lshaw@rvc.ac.uk

Mrs Carole Tilsley

Email: ctilsley@rvc.ac.uk

Research Degrees Officer:

Miss Beth Burgess

beburgess@rvc.ac.uk

Location:

The Student Centre, Camden Campus

Room 16, The Main Clinical Block, Hawkshead Campus

Website: <http://www.rvc.ac.uk/study/postgraduate/graduate-school>

Email: rdofficer@rvc.ac.uk

RVC Learn: <https://learn.rvc.ac.uk>

Welcome from the RVC Postgraduate Officers

Hello and welcome to the RVC!

Our main role is to ensure that your voice is heard throughout the College - ranging from the SU itself to the Graduate School and other academic and non-academic forums - as well as organise events and socials for postgraduate students.

As a postgraduate student studying at the RVC, you are automatically a member of the Students' Union. Although undertaking postgraduate study (especially a PhD, MRes or clinical training) may feel very different from your undergraduate days, it is important to remember that you are still a student! This allows you to use the facilities and services available to all students, including joining clubs and societies. Do get involved with whatever you enjoy and take advantage of support on hand!

We hope to arrange some professional development and social events throughout the year, however, if there is anything you would like to do - be that suggesting speakers, ideas for social events or want particular workshops - please get in touch. Our aim in the SU is to ensure that postgraduates are able to work and be in an environment that is friendly, helpful, and productive.

The easiest way to contact us is via email. No matter how big or small your query may be, we can help guide you to the right place. Suggestions and comments are always greatly received to improve your experience at the RVC.

All that's left to say is good luck and we look forward to meeting you all!

Anju Loveridge and Bonnie Man
SU Postgraduate Officers
supostgrad@rvc.ac.uk

Student Engagement

Student feedback is essential in ensuring that the RVC continues to make changes to improve our courses and students' experience at the RVC.

Student Surveys

Surveys enable individual students to provide feedback on their experiences at the RVC. Research students will be invited to feedback through:

- **Postgraduate Research Experience Survey (PRES):** conducted annually between February-June. This survey is conducted by the Higher Education Academy and collects feedback on your experiences of your programme of study. The results of the survey will be considered by the Graduate School and Research Degrees Committee.
- **Skills training sessions:** feedback is sought on each of the training sessions listed in the research student training programme. All feedback is considered by the Graduate School and the Research Degrees Committee.

Student Representation

The Students' Union has 2 Postgraduate Officers this year - Bonnie Mann and Anju Loveridge

The PG Officers collect the views/concerns/suggestions of PG students and present them to the College through committees and interactions with staff, and at the Students' Union at Council and Trustee meetings in order to develop solutions and make changes to improve the PG student experience where required.

A number of PG students sit on committees at the College and are nominated by the PG Officers after advertising for nominations.

If you have any suggestions/issues, you are encouraged to raise them with your PG Officers.

For further information please see the Students' Union website (<https://www.rvc-su.org.uk>).

If you have any queries or comments, please contact:

PG Officers, Bonnie Mann and Anju Loveridge (supostgrad@rvc.ac.uk)

Academic Quality Officer (Student Engagement) (AQOfficerSE@rvc.ac.uk)

The Royal Veterinary College

**ONE WORLD
ONE HEALTH
ONE RVC**

The mission of the Royal Veterinary College is to be a leading international authority in education, clinical care, research, expert opinion and employment in veterinary and biomedical sciences.

THE ROYAL VETERINARY COLLEGE IS:

- **Compassionate...**

as we strive for happy, healthy and resilient individuals and communities.

- **Professional...**

as we aspire to the highest standards of behaviour and conduct in all our work and study.

- **Respectful...**

of one another, with tolerance and understanding at the heart of our desire to create a diverse, inclusive and open culture.

- **Committed...**

to our work and study, to our research and innovation, to our teaching and our learning, to the student experience, to the prevention and cure of disease, to the care of animals, and to our people.

- **Curious...**

in all our endeavours as we improve, evolve and innovate, being the best we can be.

As published in the Strategic Plan to 2022-2026

Research at the Royal Veterinary College

<http://www.rvc.ac.uk/research>

The Royal Veterinary College is a leading veterinary research centre and research at the College is of international quality. The 2021 Research Excellence Framework, a system for assessing research quality in UK Higher Education Institutions, rated 88% of research as world-leading (4*) or internationally excellent (3*)

The level and breadth of our veterinary and biomedical sciences research demonstrates the College's commitment to improving human and animal health and welfare, and the important role that veterinarians and biological scientists play on the international stage.

Our research is of the highest quality and has an impact on the health and welfare of humans and animals around the world.

- RVC researchers benefit from being close to London's international centres of excellence in biomedical and biological sciences
- Researchers have easy access to expertise in functional genomics, proteomics, metabolomics and bioinformatics support
- Co-operation and collaboration between clinicians and basic scientists leads to high quality research outcomes
- RVC scientists are focused on bridging the gap between early scientific discovery and its translation into practical applications and societal impact

Our approach extends from the molecular level to the whole animal and animal populations. Underpinning research across these themes are animal welfare, biomechanics, genetics, bioinformatics, pathology, epidemiology and public health.

Research Programmes

Comparative Physiology and Clinical Sciences

[Comparative Physiology and Clinical Sciences \(rvc.ac.uk\)](http://www.rvc.ac.uk)

Integrated Research into Livestock and Food Systems

[Integrated Research into Livestock and Food Systems \(rvc.ac.uk\)](http://www.rvc.ac.uk)

Research Groups and Centres

RVC Research Centres encourage collaboration across different subject areas.

The College has strengths in veterinary epidemiology, whole animal physiology, comparative pathology, public health, animal welfare, immunology, protozoology and medicine.

For more information see [Research Groups and Centres](http://www.rvc.ac.uk) on the RVC website.

MPhil/PhD Programme of Study

Introduction

The content of this handbook must be read in conjunction with the Code of Practice for Postgraduate Research Degrees. You were emailed a copy of the Code at the start of term and each year the current version will be emailed to you at the start of each academic year. You can also find a [copy](#) on the Graduate School site on RVC Learn. The RVC Code of Practice outlines your roles and responsibilities, as well as those of your department and your supervisors, the resources and support you may expect, details of progression, the processes leading to examination, quality assurance processes and student liaison, feedback, complaints and appeals.

You will have a primary supervisor and at least one co-supervisor. Your primary supervisor is ultimately responsible for the supervision and administration of your progression (annual appraisal, nomination of examiners to the Research Degrees Committee, thesis submission, and arrangements for the oral examination (“viva”)).

Please make sure you have read, and are familiar with, the content of the Code of Practice, which is updated annually.

General Conditions of Study

Students may be governed by terms and conditions set by individual grant-awarding authorities or places of employment. Where this is not the case, or where no specific guidance is provided in alternative terms and conditions, the following apply:

Absence

- a) If a student is absent through illness, the supervisor must be informed. If the absence is for more than 5 consecutive weekdays, medical certification from their doctor must be given to the supervisor and a copy sent to the Graduate School. For periods of sickness absence exceeding 4 weeks (and up to a maximum of 12 months), the student must inform the Graduate School and request an interruption to study (which will require the approval of the Student Performance and Development System (SPDS)). The request must be approved by their supervisor and supported by medical certification.

More information regarding the [Sickness Policy for Postgraduate Research Students](#) and eligibility for receiving sickness pay can be found on the Graduate School site on RVC Learn. Information regarding SPDS can be found on the Intranet [here](#).

- b) Applications to interrupt study must be made in advance (except in cases of illness where this is not possible) and must be approved by SPDS, via the Graduate School.
- c) Interruptions to the course of study may be permitted for a number of reasons: illness, maternity/paternity/adoption leave, personal and family reasons. It should be noted that these reasons are not exhaustive, and SPDS may grant interruptions for other reasons it considers acceptable.
- d) Students will not normally be permitted to interrupt their studies for more than 12 continuous months. However, it is recognised that a longer interruption may be necessary in certain circumstances where there is a compelling reason.
- e) Requests to interrupt study should be made on the [change in registration status form](#) which can be found on the Graduate School site on RVC Learn. Medical and/or other supporting evidence must always be provided, together with a supporting statement from the student's supervisors.
- f) The College permits postgraduate research students to interrupt their degree for a **maximum** period of 12 months in total throughout the duration of their degree for the purpose of maternity/paternity leave or adoption leave where the student is the *primary* carer.

More information regarding the [Maternity Policy for Postgraduate Research Students](#) and eligibility for receiving maternity/paternity pay can be found on the Graduate School site on RVC Learn.

- g) Supervisors may grant up to five days' leave at their discretion on compassionate grounds for reasons such as the death of an immediate family

member, serious illness or injury involving a loved one or serious personal relationship problems. Time in-lieu will not be added on at the end of the studentship.

Appraisal

All students, whether studying on a full or a part-time basis, are required to have an annual appraisal in order that their progress can be assessed. Further details about appraisal formats can be found in Appendix A of the Code of Practice for Postgraduate Research Degrees.

Supervisors are responsible for identifying and contacting assessors at the start of each studentship; this is not the student's responsibility.

Attendance

MPhil/PhD students are expected to spend a minimum of two thirds of their studentship based at the College.

Requests for exemption from this requirement will be considered by a sub-group comprised of the Vice Principal for Research & Innovation, the Head of the Graduate School and one Research Degrees Committee (RDC) or Research Strategy Committee (RSC) member. Such requests will normally be made as part of the approval process for a studentship project. However, if circumstances change, requests may be submitted by a student's supervisor via the Research Degrees Officers (rdofficer@rvc.ac.uk), after the student has begun their programme of study.

Exceptions that do not require specific approval are:

- Part-time students
- Full-time students who have an RVC co-supervisor but who are based at a partner research institute (e.g. Pirbright, APHA)
- Full-time students working with a non-RVC co-applicant on a jointly held studentship

Change of Circumstances

A change in circumstances may require a student to interrupt their studies. Interruptions are approved by the SPDS upon completion of the appropriate form (see Absence section (e)). Students who have been interrupted will remain registered with the College but the time does not count towards the period of registration. No fees are payable during this time. Students who are considering withdrawing from their programme of study should discuss this with their supervisors and the Head of the Graduate School before finalising their decision. Once they have made the decision to leave, they should send a signed letter to the Head of the Graduate School; an email is not sufficient.

Communications to Press, Radio and Television

Communications to the press, radio, television or on social media networks expressing personal views may not be communicated from the College address (including email) except by permission of the Principal. The College's policy on the use of social media by its students can be found [here](#).

The consent of the Principal is required before expressing views in public on matters connected with the work of the Royal Veterinary College.

Extensions

Extensions to study are only applicable for *3 year studentships and should be submitted using the [extension request form](#) that can be found on the Graduate School site on Learn. An extension must be requested prior to the end of the studentship and has to be approved by the Head of the Graduate School and the Vice Principal for Research & Innovation. Note that the maximum permissible extension to a *3 year studentship is one year and that tuition fees are payable for the duration of the extension. The total registration period must not exceed *4 years and the expectation that the student will submit their thesis within *4 years of their start date remains.

*pro-rated for part-time study

Full-time Study

Students studying on a full-time basis are expected to complete their PhD within 3-4 years. Students on a 3-year programme will be transferred to 'writing-up' status at the start of a fourth year, once the Head of Department gives their approval. In order for a student to be allowed to transfer to writing-up status, the Head of Department must be satisfied that the work still required to be completed up to submission of the thesis is such that it can be satisfactorily completed using minimal supervision, primarily related to reading and commenting on draft thesis chapters, access to the library and other facilities, and use of personal office space and computing facilities in the Department. If additional resources are required, particularly project-related resources or a higher level of supervision, the registration will continue. A tuition fee will be payable, which is collected only after 3 years and 6 months if the thesis has not been submitted by this point. Registration will not normally be considered beyond a fourth year although in exceptional circumstances an application can be made for a fifth and final year of study. Written requests with supporting documentation should be sent to the Graduate School and will be considered by the Head of the Graduate School and the Vice Principal for Research & Innovation. The maximum registration period for a PhD student is 60 months for a full-time student and the pro-rata equivalent for a part-time student. Students entering a fifth year of study who have not submitted their thesis will be expected to pay a fee of £1270

Good Research Practice

The College expects all students undertaking research to recognise that it is their responsibility to carry out their work with rigour and integrity and to the highest possible ethical standards. See Appendix A for further details.

Health and Safety

Students are required to conform to the [College's Health and Safety regulations](#) at all times and will be asked to sign confirming that they have read the College's safety regulations. Students are expected to understand the process of risk assessment and how it impinges on their work following health and safety training provided locally at the start of their programme.

Holidays

PhD students can take up to 8 weeks' (40 days) annual leave per annum (including all public holidays and College closures), no more than one month of which may be taken at the end of study (unless the funding body supporting the studentship states otherwise, in which case the latter takes precedence). Part-time research students must abide by an employer's terms and conditions relating to annual leave.

Income Tax

A student stipend is not normally regarded as income for income tax purposes. It should, however, be noted that earning from sources such as teaching and demonstrating received during the award must be processed through payroll, be subject to normal employment law and follow HR requirements, policies and guidelines. Students on placements who receive a salary in addition to the PhD stipend should contact the HMRC to discuss the tax implications for their particular situation.

Intellectual Property (IP) Rights: Commercial Confidentiality

The intellectual property position of registered students of the College who are employed by, or whose studentships are funded by, certain independent organisations (e.g. Pirbright, APHA) may be governed by the policies of those organisations.

Students sponsored by a company or a CASE studentship will almost certainly be required to sign a legal agreement with the company covering rights to any IP arising from the sponsored project.

IP generated in the course of their studies by students who are also employees of the College, will automatically belong to RVC.

Subject to the above, postgraduate students will be formally requested to assign all IP that they may generate in the course of their studies to RVC. In return, they will be able to benefit from the same incentives and rewards as if they were members of staff. This is a condition of undertaking commercially sensitive projects as a student at RVC. Students who do not wish to make such an assignment may be transferred to alternative research projects.

Nature of Study

Study for the MPhil/PhD can be undertaken on either a full-time or part-time basis. All PhD students are initially registered for an MPhil with an expectation that upgrade to PhD registration will take place at the appraisal after one year of full-time study (or the equivalent for part-time students).

Part-time Study

Employees of the College can only be registered as part-time students and are not eligible for the travel and council tax discounts available to full-time students. It is expected that College employees and other students studying on a part-time basis will complete their studies within 4-8 years of their start date, in accordance with the proportion of time allocated to their studies. Students can be registered for part-time study at 50% or 80%. Research students registered at the RVC but pursuing their studies at an agreed partner research institute (PRI) can be either employees of that organisation or students. Depending on the research being undertaken, employees of PRIs may be spending all or only some of their time pursuing their degree. These students have a local supervisor as well as one at the RVC. If the research is being undertaken on a full-time basis, completion is expected within 3-4 years. All other PRI students are expected to complete within 4-8 years of their start date.

PRI students on 3-year studentships will be transferred to 'writing-up' status at the start of their fourth year if studying full-time; for part-time PRI and other part-time students this will take place at the equivalent point to a full-time student's fourth year. As above, a tuition fee will be payable for that year and any student entering a fifth year of study will have to pay £1270.

PgR Manager

PgR Manager is an online tool that has been developed to enable PhD students and their supervisors to help manage and streamline, the administration of the Research student journey from registration through to graduation.

The key users of the system will be the Research students, their Supervisors and Graduate school staff. It will help in monitoring progression points, enable supervision meetings to be arranged via the system, recording a training plan and log attendance of training workshops, conference attendance and other activities related to your research project.

Please note that this **system is COMPULSORY for students joining the RVC from 2019/20 onwards.**

To log into PgR manager, you can follow the link [here](#) and log into the system using your College username and password.

You should discuss PgR Manager with your PhD Supervisors and agree how it is going to be used for Supervision meetings (there are functions for requesting and recording meetings / actions)

Both PhD student and Supervisors will be able to see the Training and Development records for each Student (Training Needs Analysis, Training Plans, workshops

booked, workshops attended etc). Upcoming Graduate school workshops can be booked via the system.

Teaching, Demonstrating and other Paid Work

Students may undertake teaching, demonstrating and, subject to the supervisor's approval, other paid work directly relating to their training, provided that the total demand on their time, including time spent in preparation, does not normally exceed 6 hours a week and in all cases must not exceed 180 hours per year, averaged over the course of the academic year. The limit of 180 hours incorporates related activities such as preparation and assessment or demonstrating. It is felt that further commitments would interfere with an individual's studies.

Students who are involved in teaching will need to complete the mandatory teaching workshop entitled "Teaching and Learning in Higher Education (TLiHE)" - see Research Student Training & Education Programme for further details.

Attending the entire [TLiHE course](#) (8 weeks) is a requirement for anyone who is doing, or intends to do, more than 6 hours of teaching in any one academic year on behalf of the RVC at, or outside, the College. Teaching is defined as including small group teaching, directed learning, tutorials, practicals, distance learning, research training and assisting with undergraduate/MSc project supervision. Teaching for distance learning courses includes teaching using webinars and asynchronous or synchronous discussions and tutorials. PhD students should not deliver timetabled lectures except in specific and exceptional circumstances and never for core and mainstream topics. The TLiHE course is a postgraduate Masters-level course comprising 5 credits and students who complete the course and assessment will receive a certificate.

The employment of PGR students is subject to normal employment law and must follow normal HR requirements, policies and guidelines.

Tuition Fees

Students who have accepted the offer of a 3-year studentship and who do not submit their thesis by the end of the studentship will move to 'writing-up status'. They will be required to pay a reduced annual fee for this fourth year of study which will be collected after 3 years and 6 months, only if their thesis has not been submitted. Any student who has not submitted their thesis within 4 years will be charged a late submission fee of £1270. The maximum period of PhD registration is 5 years.

Value of the Award

The annual stipend (maintenance award) will be stated in the offer letter and is payable in 12 equal monthly instalments, in arrears. Payments for periods of less than 12 months will be reduced proportionately.

Working Hours

Whilst there is an officially agreed upper limit to the number of days holiday a post-graduate research student may take per annum (pro-rated for part-time study), the College has no specific regulations on working hours for research students. That said, the success of a project should not depend upon a student having to work excessively long hours over protracted periods of time and, as a guide, full-time students should expect to spend, on average, 40 hours per week on their thesis studies (pro-rata for part-time students). Note that the College places a limit on the hours of paid work a full-time research student can undertake (see section on **Teaching, Demonstrating and other Paid Work**).

Working hours are not fixed and will, to some extent, be determined by the nature of the research project. In addition, some people like to start work early in the day and leave early; some prefer the opposite. Your supervisors are likely to have a view on what hours they expect you to be in College but there may be times when you'd prefer to work off-site, for example if you're writing (an abstract, report or paper), or catching up with some reading. Provided the arrangement has been agreed with your supervisors in advance, and you keep in regular contact, normally there should be no reason why you are not able to do so.

The key point is that you get things done and that you meet project milestones and agreed deadlines in a timely manner. A demanding workload is a normal part of studying for a research degree and you will have to manage your time well. You will need to work flexibly around the requirements of your experimental or other investigative work, and this may well involve working in the evenings and/or weekends for some periods of time. However, if at any stage during your studies you feel that the demands being placed upon you by your supervisors are unreasonable, do not hesitate to speak to a member of staff in the Graduate School, a mentor (if you have one) or one of the PG Advisors. The same applies if at any time you find you are struggling to meet the demands of a reasonable workload.

Typical Structure of MPhil/PhD Programme for Full-time Students

Year 1	Year 2 (<u>and</u> Year 3 for 4 year PhDs)	Year 3 or 4 (Final Year)
<p>You register with the Graduate School. PhD students are initially registered for the MPhil degree.</p> <p>You attend PhD Induction in early October. Students beginning at other times will have an induction with the Head of the Graduate School.</p> <p>You will have the option to have a peer-mentor assigned to you who will help you to settle into your 1st year. You will also be allocated a PG Advisor.</p> <p>You complete and document the initial, 3- and 6-month progress meetings with your supervisor (in PgR Manager)</p> <p>You attend the postgraduate statistics course and pass the examination (the exam is standard set so the pass mark will vary each year).</p> <p>You complete the following mandatory training courses within 3 months of the start of your studentship:</p> <ul style="list-style-type: none"> - Research with Integrity (online) - Working with your supervisor (online) - General Data Protection Regulations (online) - Health and Safety Induction - Good Research Practice <p>You complete the following mandatory <u>online</u> training courses within 12 months of the start of your studentship:</p> <ul style="list-style-type: none"> - Conferences, presenting and networking - Getting published in the sciences 	<p>You re-enrol with the Graduate School. Registration is required annually.</p> <p>You attend appropriate training courses for particular techniques or purposes required for your research.</p> <p>You attend training days/courses organised by the Graduate School or by HR and seminars, conferences etc., as agreed with your supervisor.</p>	<p>You re-enrol with the Graduate School. Registration is required annually.</p> <p>You attend appropriate training courses for particular techniques or purposes required for your research.</p> <p>You attend training days/courses organised by the Graduate School or by HR, and seminars, conferences etc., as agreed with your supervisor.</p>

<p>- Managing your research project</p> <p>You attend general research training and specific courses for particular techniques or purposes required for your research.</p> <p>You attend training days/courses organised by the Graduate School or by HR and seminars, conferences etc., as agreed with your supervisor.</p> <p>You attend and present a graphical abstract at the annual PG Research Day, and take part in the Research with Impact competition.</p> <p>You attend at least 50% of the postgraduate seminars, a minimum of 6 of the College's research seminars and 6 other talks on topics relating to your field of study.</p> <p>You present once at the postgraduate seminar series.</p> <p>Your primary supervisor identifies two assessors who will monitor your progress through annual appraisal and be available for additional discussion concerning your progress</p> <p>You submit an appraisal report by the first anniversary of your registration (see p22 for details). Further information is available from the Graduate School site on Learn (and PgR Manager when live).</p> <p>You attend an appraisal meeting with your two assessors and your supervisor. Appraisal records are logged in PgR Manager. <i>You are upgraded to PhD if your progress has been satisfactory.</i></p>	<p>You attend the annual PG Research Day and present a poster.</p> <p>You attend at least 50% of the postgraduate seminars, a minimum of 6 of the College's research seminars and 6 other talks on topics relating to your field of study</p> <p>You present once at the postgraduate seminar series.</p> <p>You submit an appraisal report or prepare a presentation and short report by the anniversary of your registration</p> <p>You attend an appraisal meeting with your two assessors and your supervisor. Appraisal records are logged in PGR Manager.</p>	<p>You attend and give a talk at the annual PG Research Day.</p> <p>You attend at least 50% of the postgraduate seminars, a minimum of 6 of the College's research seminars and 6 other talks on topics relating to your field of study</p> <p>You present at the postgraduate seminar series if, for an approved reason, you are not able to give a talk at the PG Research Day.</p> <p>If you are in year 3 of a 4 year PhD, you attend an appraisal meeting with your two assessors and your supervisor. Appraisal records are logged in PGR Manager.</p> <p>You submit your thesis for examination after 3.5 years (3-year studentships) or before the end of your 4th year at the latest.</p>
--	--	--

Typical Structure of MPhil/PhD Programme for Part-time Students (50%)

Year 1 and 2	Year 3 and 4	Year 5 and 6
<p>You register with the Graduate School. PhD students are initially registered for the MPhil degree.</p> <p>You attend PhD Induction in early October in year 1. Students beginning at other times will have an induction with the Head of the Graduate School.</p> <p>You will have the option to have a peer-mentor assigned to you who will help you to settle into your 1st year. You will also be allocated a PG Advisor.</p> <p>You complete and document the initial, 3- and 6-month meetings with your supervisor (in PgR Manager) at the start, 6 months and 12 months, respectively (pro-rated for 80% part-time students).</p> <p>In year 1 or year 2 you attend the postgraduate statistics course and pass the examination (the exam is standard set so the pass mark will vary each year).</p> <p>You present once at the postgraduate seminar series. If you are 80% part-time you should present in year 1.</p> <p>You complete the following mandatory training courses within 4-6 months of the start of your studentship:</p> <ul style="list-style-type: none"> - Research with Integrity (online) - Working with your supervisor (online) - General Data Protection Regulations (online) - Health and Safety Induction - Good Research Practice 	<p>You re-enrol with the Graduate School. Registration is required annually.</p> <p>You attend appropriate training courses for particular techniques or purposes required for your research.</p> <p>You attend training days/courses organised by the Graduate School or by HR and seminars, conferences etc., as agreed with your supervisor.</p>	<p>You re-enrol with the Graduate School. Registration is required annually.</p> <p>You attend appropriate training courses for particular techniques or purposes required for your research.</p> <p>You attend training days/courses organised by the Graduate School or by HR, and seminars, conferences etc., as agreed with your supervisor.</p>

<p>You complete the following mandatory online training courses before the end of year 2 of your studentship (pro-rated for 80% part-time students):</p> <ul style="list-style-type: none"> - Conferences, presenting and networking - Getting published in the sciences - Managing your research project <p>You attend general research training and specific courses for particular techniques or purposes required for your research.</p> <p>You attend training days/courses organised by the Graduate School or by HR and seminars, conferences etc., as agreed with your supervisor.</p> <p>You present a graphical abstract at the annual PG Research Day and take part in the Research Impact competition in either year 1 or 2. If you are 80% part-time you should present in year 1.</p> <p>During years 1 and 2, you attend at least 50% of the postgraduate seminars, a minimum of 6 of the College's research seminars and 6 other talks on topics relating to your field of study (pro-rated for 80% part-time students).</p> <p>You present once at the postgraduate seminar series during years 1 or 2. If you are 80% part-time you should present in year 1.</p> <p>Your primary supervisor identifies two assessors who will monitor your progress through annual appraisal and be available for additional discussion concerning your progress.</p>	<p>You attend PG Research Day in year 3 or 4 and present a poster.</p> <p>During years 3 and 4 you attend at least 50% of the postgraduate seminars, a minimum of 6 of the College's research seminars and 6 other talks on topics relating to your field of study.</p> <p>You present once at the postgraduate seminar series, either in year 3 or 4.</p>	<p>In year 6 (pro-rated for 80% part-time students) you give a talk at the annual PG Research Day.</p> <p>During years 5 and 6 you attend at least 50% of the postgraduate seminars, a minimum of 6 of the College's research seminars and 6 other talks on topics relating to your field of study.</p> <p>You present at the postgraduate seminar series if, for an approved reason, you are not able to give a talk at the annual PG Research Day in year 6 (pro-rated for 80% part-time students).</p>

Appraisal records are logged in PgR Manager.</p> <p>Students registered at 80% should submit their appraisal report and have a full appraisal 28-30 months into the studentship.</p>	<p>At the end of year 5 you have a light touch appraisal. Appraisal records are logged in PgR Manager.</p> <p>Before the end of year 6 (pro-rated for 80% part-time students) you submit your thesis for examination.</p>
---	--	---

Developing your Skills as a Researcher

Employers of postdoctoral researchers not only seek individuals with specialist knowledge who are able to undertake complex procedures but those with particular generic skills. The knowledge, behaviours and attributes expected of highly skilled researchers are set out in the Researcher Development Statement (RDS), which is derived from the Researcher Development Framework (RDF). To learn more about the RDF and RDS go to:

<https://www.vitae.ac.uk/researchers-professional-development/about-the-vitae-researcher-development-framework>

To assist you with developing and recording the skills you will need as a successful researcher, the RVC offers a number of online and face-to-face training events. You are expected to take full advantage of this training and should be aiming to participate in the training programme and appropriate other professional and career development activities to an equivalent of 10 days per year. Each training activity is assigned a number of points. Research students are expected to accrue 20 points per year (or 60-70 points over a 3-4 year studentship). Half a day's training is worth one point; 10 days of training per year is therefore equivalent to 20 points per year (pro-rated for part-time students).

You will record the training points that you have accrued and your structured meetings with your supervisor in PgR Manager.

Training Requirements for externally based RVC students

There will be no minimum period of attendance each year for externally based MPhil/PhD students but they *must* attend an induction, visit the College to meet face-to-face with their supervisor(s) at least once in each year of the studentship (Covid-19 restrictions permitting) and undertake the following mandatory skills training:

- *Year 1:* Complete the online courses Research Integrity; Working with your supervisor; Selecting a conference, presenting and networking; Getting published in the sciences and Managing your Research Project; complete the PG statistics course and take the exam; attend and present a graphical abstract Postgraduate Research Day (and submit the associated poster abstract and research impact statement)
- *Year 2:* Present a poster at Postgraduate Research day
- *Year 3/4:* Attend and give a talk at Postgraduate Research Day

Annual appraisal must be undertaken at a face-to-face meeting (Covid-19 restrictions permitting).

Academic Skills and Seminars

These will be enhanced as part of your research programme. **You are required to attend the two weekly College seminar series to broaden your knowledge. You will be expected to attend at least 50% of the postgraduate seminars (Tuesdays), a minimum of 6 of the College's research seminars (Wednesdays) and 6 other talks on topics relating to your field of study.** RVC seminars are normally video-linked across the two campuses but will be taking place remotely

(via Zoom, MS Teams or similar) for the foreseeable future. **Your attendance at these seminars will be monitored.** Where students are not primarily based at the RVC they must provide evidence at appraisal of seminar attendance elsewhere. Recordings of the seminars are available on the Graduate school site of Learn.

In addition, in consultation with you supervisor and relevant course/module leaders, you may attend courses within the College that are part of the undergraduate or postgraduate curriculum, or undertake courses that are part of the College's Distance Learning programmes. A fee will be payable for any MSc modules that you take so please discuss this with your supervisor before enrolling on any module. You may also be able to attend courses run by other institutions or external organisations.

Some specialist training will be mandatory before you start laboratory or field work e.g. handling radioactive substances, use of experimental animals. This is for legal and safety reasons.

Transferable (key or professional) skills

These are defined as essential work skills that are not specific to any one subject or profession.

Training: What are your needs?

At induction you will be introduced to the process of completing a Training Needs Analysis. You will use PgR Manager to monitor your training needs and your progress. The College provides a number of training opportunities throughout the year. All training is listed on the Graduate School site on Learn and on PgR Manager.

Statistics Course

This is provided as a series of eight sessions. All sessions for 2023/24 will be delivered by Dr Ruby Chang, a chartered statistician.

A mandatory exam is held at the end of the compulsory sessions which all students are expected to pass, after which a certificate will be issued.

The timetable and content for the 2023/24 course can be found [here](#) on the Graduate School site on RVC Learn.

Training Opportunities and Booking Information

For information about all of the training on offer at the RVC please refer to the Graduate School site on RVC Learn. Invitations to sessions and booking for all training is done through PgR Manager.

Postgraduate students may attend staff training sessions if places are available. For more information and booking details please visit the [staff training section](#) on the intranet home page.

You should keep a record of your attendance at skills training sessions via PgR Manager. The Graduate School will confirm your attendance at sessions which are part of the training programme.

Training Cancellation Policy

There will be no charge for a cancellation made with at least 3 working days' notice.

A £25 cancellation fee (payable by student or supervisor) will normally be charged for last minute cancellations (less than 3 working days' notice) or failure to attend without good reason.

If you are unwell on the day of the training session, please e-mail rdofficer@rvc.ac.uk or telephone the Graduate School (020 7468 5134) as soon as possible after 9am. If there is no-one available to take the call, a message should be left on the answer machine.

Bloomsbury Postgraduate Skills Network

The purpose of the [BPSN shared skills training programme](#) is to allow research students in the participating institutions to enhance their generic research skills and personal transferable skills, through attending training courses and workshops at other member institutions. Whilst each institution offers its own training to its registered students (and handles their registration separately), the BPSN programme allows access to a variety of training opportunities from other member institutions.

The skills attained from the programme are intended to help research and also to enhance life skills and employability; the members are leading higher education institutions within Bloomsbury, from smaller specialist institutions to large multi-faculty ones.

The [programme of training courses](#) on offer from the participating institutions continues to change as the year proceeds; please review the programme on offer at regular intervals in order to ensure that you make the most of the opportunities open to you.

BPSN events are managed via Inkpath, so to see the course catalogue and book your place, please set up your BPSN account (instructions below) and browse, book and verify your activities.

- [Learn more about Inkpath](#)

If you experience any problems signing up, please contact docskills@ucl.ac.uk or info@inkpath.co.uk.

UK Council for Graduate Education

UKCGE: The Council for Graduate Education

The UKCGE was founded in 1994 under the Chairmanship of Professor Robert Burgess to champion the interests of graduate education. It helps its members contribute to the development of the UK's graduate education through conferences, workshops and publications.

The Council holds an annual conference along with a full programme of workshops and publications on a wide variety of postgraduate issues.

Vitae: Realising the Potential of Researchers

Vitae (www.vitae.ac.uk) is a national organisation championing the personal, professional and career development of doctoral researchers and research staff in higher education institutes and research institutes.

Postgraduate research students benefit directly and indirectly from the work that Vitae undertakes.

Vitae is committed to enhancing the quality and output of the research base in the United Kingdom, through supporting the training and development of the next generation of world-class researchers.

Annual Appraisal

The College is committed to a system of annual appraisal of all students registered for higher degrees (MPhil, PhD and DProf). This applies to all full-time and part-time research students.

PhD students who are registered 80% part-time should follow the same system of appraisal as full-time students except that the full appraisal should take place 14-15 months after the start date of the studentship and at 14-15 month intervals thereafter.

	Full-Time Students		50% Part-Time Students (pro-rated for 60-80% part-time students)
Year 1*	Full Appraisal		Light touch Appraisal
	Appraisal will consist of a 5,000-word report and an oral with 2 assessors to discuss the project*		Appraisal will consist of a 2-page progress report to be reviewed by 2 assessors
	Good or Excellent	#Weak or very poor	
Year 2*	Appraisal will consist of a 2-page progress report, a 20-30 min presentation and associated oral with 2 assessors to discuss the project	Appraisal as above	Appraisal will consist of a 5,000-word report and an oral with 2 assessors to discuss the project <i>Performance at this appraisal will determine the format of the appraisal at year 4</i> <i>DProf students would typically have completed 120 credit taught modules</i>
	Good or Excellent	#Weak or very poor	
Year 3* (4y F/T students only)	Appraisal as above	Appraisal as above	Light touch Appraisal
Year 4*	Submission		Performance at year 2 appraisal:
			<div> excellent / good </div> <div> #weak / v poor </div> <div> Appraisal will consist of a 2-page progress report, a 20-30 min presentation and associated oral with 2 assessors to discuss the project </div> <div> Appraisal as in year 2 </div> <div> <i>Performance at this appraisal will determine the format of the appraisal at year 6</i> </div>

Year 5*		Light touch Appraisal	
Year 6*		Performance at year 4 appraisal:	
		excellent / good	#weak / v poor
		Appraisal as in year 4	Appraisal as in year 2
Year 7*		Light touch Appraisal	
Year 8*	Submission		

NOTE:

All appraisal documentation is completed in PgR Manager. Guidance on using the online system for appraisals is on RVC [Learn](#).

*If in any year of appraisal a student does not satisfy their assessors, remedial action may be needed, the nature of which will depend on the individual circumstances.

#A “satisfactory” performance at appraisal could result in a requirement for *either* a 5,000-word report *or* a short report and presentation + oral at the next full appraisal.

*iCASE students are required to submit a placement plan and objectives (normally) at the year 1 appraisal, which may be included in the appraisal report.

Note for LIDo students:

LIDo students who join the RVC in year 1 of the LIDo programme will have a light touch appraisal at the end of year 1 and have their first full (upgrade) appraisal at the end of year 2.

Full Appraisal

The first full appraisal consists of evaluation of a 5,000-word report (excluding references and appendices but including figure legends and footnotes) and a meeting with the student. The content of the report and the students’ progress with their research and skills development training will be discussed. Students also have the opportunity to raise any issues relating to their programme of study. The appraisal is conducted by two assessors, who are members of academic staff not directly involved in the project. The primary supervisor is expected to be present, but not to participate unless invited to do so. The assessors evaluate the student’s report and performance in the meeting by completing the online appraisal documents. These a) provide feedback to the student and their supervisors on progress and any areas for attention and future development and b) record recommendations to the Graduate School based on student progress. The assessors will normally remain the same throughout the duration of studies. Supervisors also provide feedback on the student’s development as a researcher. Upgrade to PhD registration will be considered for students at the year 1 appraisal (year 2 for part-time students and 14-15 months into the studentship for those registered 80% part-time) and a recommendation made about the format of the next year’s appraisal.

LIDo students who join the RVC in year 1 of the LIDo programme will have a light touch appraisal towards the end of year 1 and have their first full appraisal towards the end of year 2.

If a student performs well during their first full appraisal, the next full appraisal will normally consist of a short written summary of their progress over the past year to be submitted to their assessors in advance of the appraisal meeting, together with a PowerPoint presentation about their work which will be discussed with their assessors at the meeting. As in the first full appraisal online appraisal forms will be completed by all the relevant parties. A recommendation about the format of a subsequent full appraisal (if required) will be made based on the student's performance at the second full appraisal.

Light Touch Appraisal

Part-time students will be appraised at the end of each year of study (for DProf students this will be one year after completion of parts 1-3 of the programme) but in years 1, 3, 5 and 7 (if relevant) the appraisal will consist of a short written progress report which should include research plans for the next year. This will be sent to the assessors for review via PgR manager, together with the supervisors' assessment and the students' comments. Assessors will be asked to recommend to the Graduate School whether the student should be allowed to continue with their studies and/or if any remedial action is required. They are not expected to meet with the student but may ask to do so if they think it is necessary. In years 2, 4 and 6 (if relevant), the appraisal process will be as described as above for full-time students.

Supervisors are responsible for identifying assessors and organising (with the student and the assessors) a suitable date, time and place for the appraisal meeting.

Appraisal guidelines can be found on the Graduate School site on RVC Learn.

The Research Degree Examination

(1) Appointment of Examiners

Research degree examiners must be approved by the Research Degrees Committee, 4 - 6 months before the student expects to submit their thesis. Under no circumstances should students be asked to identify or contact prospective examiners.

- a) For all students registered for a research degree at the RVC, examiners for MPhil, PhD and the research component of the DProf examinations are approved by the Research Degrees Committee (RDC). The RDC meets four times a year before Academic Board. It is the responsibility of the supervisor to ensure that examiners are approved in a timely manner. It is strongly recommended that nominations are submitted to the meeting occurring no later than 4 months before anticipated submission of the thesis.
- b) Supervisors must complete a standard [examiner nomination](#) form. Forms are found on the Graduate School site on RVC Learn. They must be submitted to the secretary of the RDC, (rdofficer@rvc.ac.uk), no later than 8 working days before the Committee meets. Notice of meetings is posted on the Intranet.
- c) A draft abstract of the thesis must be attached to the form. (This is solely for assessing the suitability of the examiners and need not be the final thesis abstract.)
- d) Two examiners must be nominated of whom one is normally an internal examiner from within the University of London (and normally from a school/College of the University other than the RVC) and the other an external examiner (from outside the University of London). At least one examiner is expected to have experience of examining University of London PhDs. If there is no-one in any of the other schools/Colleges of the University of London who would be able to examine the thesis, two external examiners and an Independent Chair with experience of examining for the University of London will be appointed. In some circumstances it may be necessary to appoint 3 examiners to ensure that all aspects of the thesis are comprehensively examined. **An examiner should have no association with the submitted work and in no circumstances would be the supervisor or one of the assessors at annual appraisal.** It is recognised that, occasionally, an internal and external examiner will, between them, be able to cover all aspects of the work presented by the candidate but lack previous experience of examining University of London research degrees. In these circumstances, an Independent Chair who has experience of examining for the University of London should be appointed. An examiner with no or limited experience of examining level 8 research degrees (or level 7, for MPhil examinations) should always be paired with a highly experienced co-examiner.
- e) The RVC Research Degrees Officer will email the student, supervisors and all examiners to confirm the appointments.

(2) Thesis requirements

(a) Length

The length of an RVC PhD thesis should be no more than **100,000** words **including** figure legends and footnotes but **excluding** bibliography and appendices.

The length of an RVC MPhil thesis should be no more than **60,000** words **including** figure legends and footnotes but **excluding** bibliography and appendices.

Appendices should only include material which the examiners are not required to read in order to examine the thesis (but to which they may refer if they wish).

These are upper limits and not targets. Students should consult with their supervisor(s) about the length of thesis that is appropriate for each particular research topic and be mindful that brevity without sacrifice of clarity will be appreciated by examiners.

Extensions to the word limit will not be permitted.

(b) Content and Structure

(i) PhD thesis

The scope of the thesis should be what might reasonably be expected after 3, or at most 4 years of full-time study. It must:

- Be written in English to a satisfactory literary standard and bound in accordance with RVC regulations. See [Appendix B](#)
- Consist of the candidate's own account of their investigations, the greater proportion of which shall have been undertaken during the period of registration under supervision for the degree.

[The part played by the candidate in any work done jointly with the supervisor(s) and/or fellow researcher workers must be clearly stated by the candidate and certified by the supervisor.]

- Form a distinct contribution to knowledge in the field and afford evidence of originality shown by the discovery of new facts and/or the exercise of independent critical power.
- Indicate in what respect the described studies have advanced the subject.
- **Not** contain work already submitted for another degree but **may** contain data obtained in conjunction with a supervisor or fellow researchers, provided that the student clearly states their personal role in the investigation and the statement is testified by the supervisor.

[Work already published, including work published in joint names, may be included *only if it is adapted to form an integral* part of the thesis and thereby makes a relevant contribution to the main theme of the thesis. A series of publications alone is not acceptable as a thesis. Publications may be bound at the back of the thesis as appendices.]

- Give a critical assessment of the literature, describe the methods of research and its findings, include discussion of those findings and indicate in what respects they appear to the candidate to advance the study of the subject. *In so doing the candidate will demonstrate a deep and synoptic understanding of their field of study by placing their work in a wider context, objectivity and the capacity for judgement of complex situations.*
- Demonstrate research skills relevant to the work presented.

- **Not** exceed the prescribed word limit (see thesis length).
- Include a full bibliography and references.
- Be of a standard to merit publication in whole or in part or in a revised form (for example as a monograph or a number of articles in peer-reviewed journals).

(ii) MPhil Thesis

The scope of an MPhil thesis should be what might reasonably be expected after 2 or at most 3 years of full time study. It must:

- Be written in English to a satisfactory literary standard and bound in accordance with RVC regulations. See [Appendix B](#)
- Consist of the candidate's own account of their investigations, the greater proportion of which shall have been undertaken during the period of registration under supervision for the degree.

[The part played by the candidate in any work done jointly with the supervisor(s) and/or fellow researcher workers must be clearly stated by the candidate and certified by the supervisor.]

- Be either a record of original work or of an ordered and critical exposition of existing knowledge and shall provide evidence that the field of study has been surveyed thoroughly.
- **Not** contain work already submitted for another degree but **may** contain data obtained in conjunction with a supervisor or fellow researchers, provided that the student clearly states their personal role in the investigation and the statement is testified by the supervisor.

[Work already published, including work published in joint names, may be included *only if it forms an integral* part of the thesis and thereby makes a relevant contribution to the main theme of the thesis. A series of publications alone is not acceptable as a thesis. Publications may be bound at the back of the thesis as appendices.]

- Be an integrated whole and present a coherent argument.
- Give a critical assessment of the relevant literature, describe the method of research and its findings and include a discussion on those findings.
- **Not** exceed the prescribed word limit (see thesis length).
- Include a full bibliography and references.

(3) Submission Process

When the thesis is complete, it should be bound as per RVC specifications (see Appendix B for details). Two copies must be taken to the Student Centre in Camden between 09.00 and 17.00 Monday to Friday (3 copies if 3 examiners have been appointed). An additional copy should be taken to the oral exam.

A PDF copy of the thesis should be sent by e-mail, to the Research Degrees Officer at rdofficer@rvc.ac.uk at the time of submission or just before. This will be run through Turnitin (plagiarism software). Along with the electronic copy of the thesis, students must submit the Consent to Publish and Declaration of Originality and Word count forms. These are available on the Graduate School site on RVC [Learn](#).

Whenever possible, students should take their thesis to the Student Centre in Camden in person.

The Research Degrees Officer will send the thesis to the examiners and will work with the supervisor to arrange a date for the viva (oral examination) with the examiners. The supervisor is responsible for the further practical arrangements for the viva (e.g. room booking, notifying any others concerned, and ordering refreshments where appropriate).

(4) Examination of the Thesis

The thesis is read and evaluated by the examiners and you will be asked to attend an oral examination (viva). This is normally held within 3 months of submission of the thesis.

The Oral Examination

All students are required to attend the oral examination (viva) at the RVC (Camden or Hawkshead campus) in person. It is therefore advisable that they remain in the country between submission of the thesis and the viva. Oral examinations via Zoom or MSTeams are not normally permitted but may be considered in **very** exceptional circumstances, which must be approved by the Head of the Graduate School.

Any students with a disability, who are unable to undertake the usual viva must have discussed appropriate alternative arrangements with their supervisor and the student support manager and/or medical advisors if appropriate. **They must send notification, in writing, of the recommended adjustments to the Graduate School at or before thesis submission.**

Supervisors are expected to arrange a 'mock' oral examination with the student to prepare them for what to expect.

Students are required to take an exact copy of the thesis to the viva, although it does not need to be a hard-bound copy. With the student's and examiners' permission, the supervisor may attend the viva, but must not participate unless directly requested by the examiners.

Normally there will be 2 examiners, one from the University of London and one external to the University, although occasionally both examiners may be external to the University of London. In some circumstances it may be necessary to appoint 3 examiners to ensure that all aspects of the thesis are comprehensively examined. When 2 external examiners are used and in other circumstances, such as when the examining team has had limited experience of examining University of London PhDs, or on re-examination of a thesis, an Independent Chair (from the

RVC) will also be present. They will not have read the thesis and will not play an active part in the examination. They are present to oversee the examination process.

At the oral examination, the examiners will be establishing that the work is the student's own and that the student understands the work they have done. The student will be expected to defend their approach and interpretations, have a good general knowledge of the subject and be familiar with any relevant material published since submitting the thesis. Students should be prepared to answer both very detailed questions about their work and those on the broader context of their studies.

PhD Examination Outcomes

There are a number of options open to the examiners in determining the result of the **PhD examination**. They may recommend that:

1. The Candidate be awarded the degree of PhD

- 1.1. The candidate be **awarded** the degree of Doctor of Philosophy without further work.
- 1.2 The candidate be awarded the degree of Doctor of Philosophy **subject to minor amendments** to the text made **within 3 months** and to the satisfaction of the internal examiner.

2. The Candidate be permitted to re-submit for the degree of PhD

- 2.1 The candidate must make **major amendments** to the satisfaction of the examiners and **re-submit** the revised thesis **within 6 months** *without* a further oral examination.
- 2.2 The candidate has **failed to satisfy the examiners at the oral examination** but will be permitted to **revise and re-submit** the thesis **within 18 months** *without* a further oral examination.
- 2.3 The candidate has **failed to satisfy the examiners in the oral examination** but will be permitted to **re-present** the **same thesis** **within 6 months** *with* a further oral examination.
- 2.4 The candidate has **failed to satisfy the examiners at the oral examination** but will be permitted to **revise and re-submit** the thesis **within 18 months** *with* a further oral examination.

3. The Candidate be awarded/permitted to re-submit for the award of MPhil*

The candidate has **failed to satisfy the examiners at the oral examination** and will be invited to be considered for the award of MPhil.

4. The Candidate be adjudged to have failed to satisfy the examiners for award of either MPhil or PhD

The candidate will not be permitted to re-submit for an MPhil or PhD.

Students are normally told the examiners' recommendation immediately after the oral examination. They will be officially informed of the result by the Graduate School and will receive a copy of the examiners' joint report, which will document any required changes. Students and supervisors are reminded that the Graduate School will not send official notification of a result to the University of London until an electronic copy of the final thesis (including any revisions required, and subsequently approved, by the examiners) has been received, and any outstanding fees or monies owed by the student to the College have been paid. The degree certificate will be sent by the University 2-3 months after this. If, for a

specific purpose, earlier certification is required, the Graduate School can provide a provisional statement.

Students are also reminded that they must not contact, petition or lobby the examiners before, during or after the oral examination, whatever the outcome. In the circumstance of a student not reaching the required standard, the Research Degrees Officer or Head of the Graduate School will inform the student about the options available. The student and supervisor should then discuss the way forward.

MPhil Examination Outcomes

There are a number of options open to the examiners in determining the result of the **MPhil examination**. They may recommend that:

1. The Candidate be awarded the degree of MPhil

- 1.1. The candidate be **awarded** the degree of Master of Philosophy without further work.
- 1.2 The candidate be awarded the degree of Master of Philosophy **subject to minor amendments** to the text made **within 3 months** and to the satisfaction of the internal examiner.

2. The Candidate be permitted to re-submit for the degree of MPhil

- 2.1 The candidate must make **major amendments** to the satisfaction of the examiners and **re-submit** the revised thesis **within 6 months** *without* a further oral examination.
- 2.2 The candidate has **failed to satisfy the examiners at the oral examination** but will be permitted to **revise and re-submit** the thesis **within 18 months** *without* a further oral examination.
- 2.3 The candidate has **failed to satisfy the examiners in the oral examination** but will be permitted to **re-present** the **same thesis** **within 6 months** *with* a further oral examination.
- 2.4 The candidate has **failed to satisfy the examiners at the oral examination** but will be permitted to **revise and re-submit** the thesis **within 18 months** *with* a further oral examination.

3. The Candidate be adjudged to have failed to satisfy the examiners for award of MPhil

The candidate will not be permitted to re-submit for an MPhil.

Thesis Revisions

The student may be required to make revisions to the thesis, as specified in the examiners' joint report. Depending on the nature and extent of the revisions required, the student may be given 3 months (minor revisions), 6 or 18 months (major revisions) to complete the changes and re-submit the thesis. The revised thesis, together with an itemised list of changes made, should be emailed to the Research Degrees Officers (rdofficer@rvc.ac.uk) and they will correspond with the examination team. Students and supervisors should be aware when planning dates and/or travel for the oral examination (viva) and other commitments that further work may be required after the viva and before the award of the degree. It is important that students allow sufficient time to make the required revisions. Supervisors will continue to provide advice throughout the process of revising the thesis.

Submission of Thesis Amendments

In the event that a student thinks it unlikely they will meet the 3-, 6- or 18-month deadline, they should contact the Graduate School (where possible at least 2 weeks beforehand) to explain the extenuating circumstances. With the agreement of the examiners, the Research Degrees Officer will then set a new deadline for submission of the corrections which will take account of the nature of the extenuating circumstances. If the Research Degrees Officer does not receive the thesis and is only made aware of the failure to meet the 3-, 6- or 18-month deadline by the examiners, they will request an explanation from the student. If there are extenuating circumstances, a new deadline for submission of the corrections will be set with the agreement of the examiners. If there are no extenuating circumstances, a new submission deadline will be set and the student may be subject to attending another viva. In the event that a student fails to meet the new submission deadline and has no extenuating circumstances, the student will be referred to SPDS and could fail the examination.

In the event that a student does not send their revised thesis to the Research Degree Officer by the deadline set, and has not been in touch with the supervisory team/Graduate School in the interim, every endeavour will be made to contact the student (including sending a letter by recorded delivery to the student's last known address) up to one month after the submission deadline with the following request/information:

- 1) That they attend an SPDS meeting on a set date to explain any extenuating circumstances;
- 2) That non-attendance at the SPDS meeting without a satisfactory explanation will automatically result in registration being terminated;
- 3) That the student will have the right of appeal following normal College procedures.

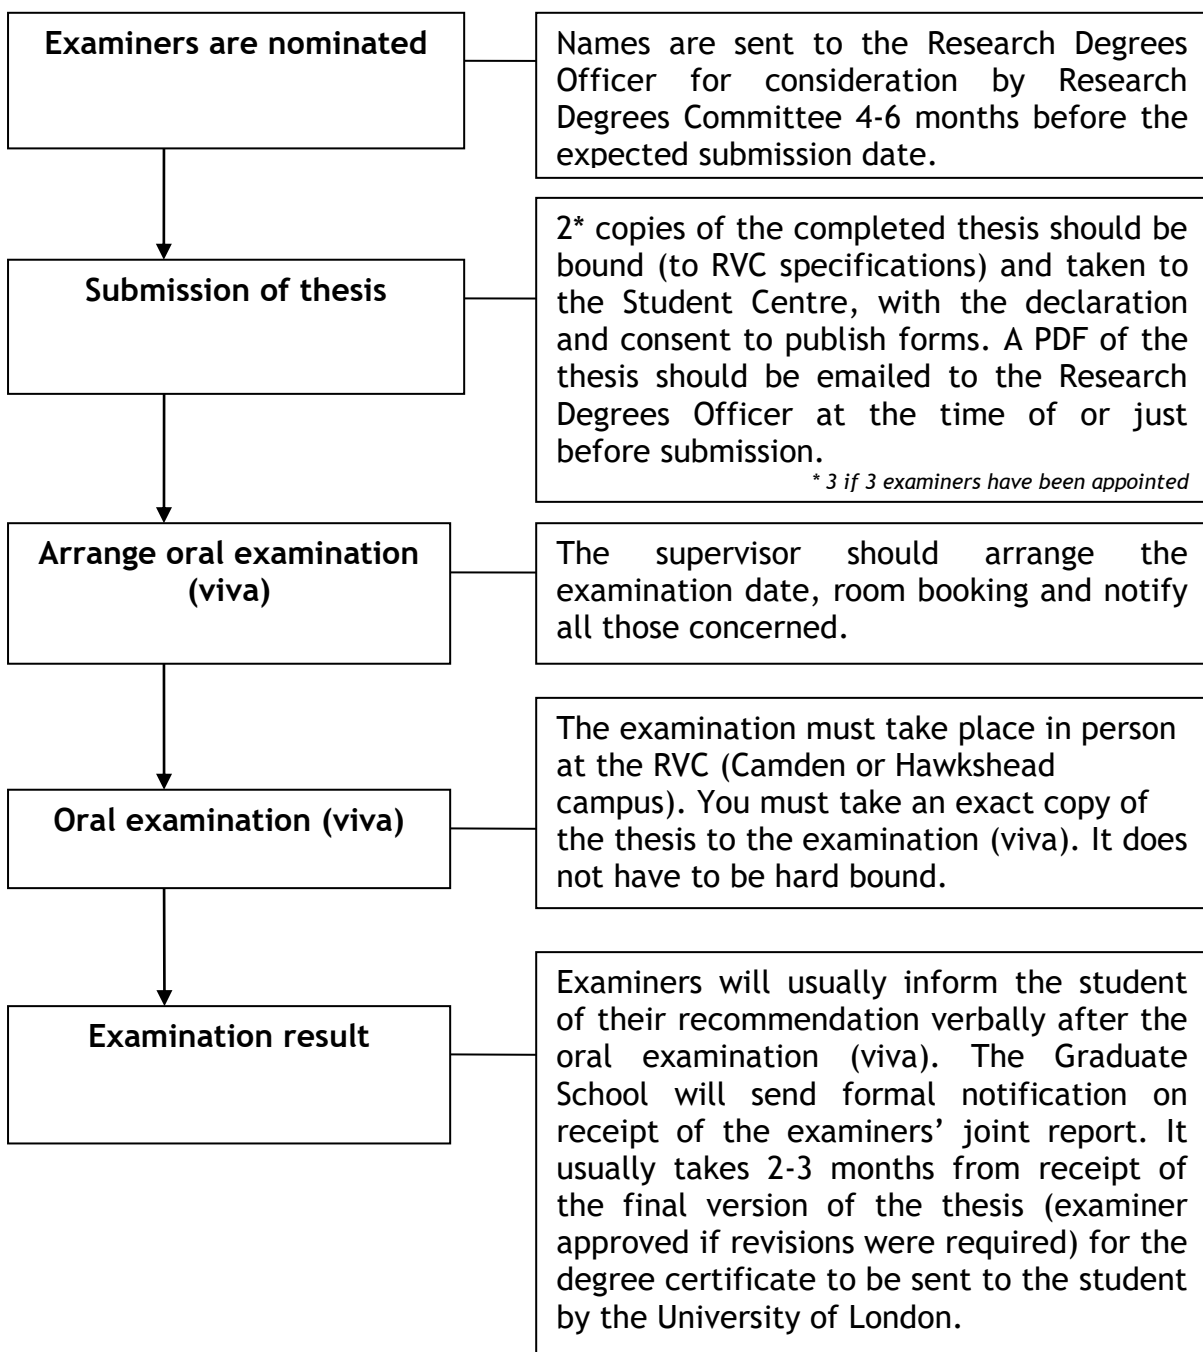

This procedure will also apply if a student has not submitted their thesis within 4 years (pro-rata for part-time students) from the date of registration (excluding any approved interruptions) and does not reply to any communication from their supervisors or the Graduate School.

Appeals Procedure

Under the Procedure for Consideration of Appeals by Candidates for Research Degrees, any student who wishes to appeal against the examiners' decision must make an application to the Academic Registrar within 2 months of notification of the result. Advice on making an appeal is available at the following link under the subheading General:

<http://www.rvc.ac.uk/about/the-rvc/academic-quality-regulations-procedures>

Overview of the Examination Process

A - Z of General Information

Absence

Please see information under General Conditions of Study [here](#).

Accident and Reporting Procedure

The RVC uses an online incident reporting system called **SafetyNet** for all staff and students to report incidents, accidents and near misses. More information can be found here:

<https://intranet.rvc.ac.uk/professional-services/estates/health-and-safety/information-a-to-z.cfm#Accident-Incident-Reporting>

Advice Centre

The Advice Centre team is here to offer advice, information and guidance to help you make your time at the Royal Veterinary College a success. We offer confidential and impartial support to all RVC students on a variety of matters. More information can be found [here](#).

Complaints

The College has procedures in place to deal with the different types of complaints that can be made. In each case, the aim is to ensure that the problem is resolved at an early stage, in a timely manner and to the satisfaction of all parties. All complaints will be handled in strict confidence.

Further information about the complaints procedures and links to the relevant documents are available [here](#).

COVID 19

It is essential in the current circumstances that students are familiar with and keep up-to-date with the current COVID-19 guidance.

Data Protection

The Academic Registry holds records about you, the essentials of your academic progress, correspondence between us and background details. You are entitled to see these.

We will not divulge details to third parties without your permission so make sure your friends and family know how to contact you, because we won't tell anyone.

If an outside company needs us to confirm any of your details, including course, address or date of birth, they need to send us a declaration signed by you that says you are willing for us to release this information. Without this we cannot even confirm your student status.

Debt

Students should take note of the [General Regulations for Students](#), paragraph 4. Please note the following:

- 4.4. A student who is in debt to the College for tuition fees will not be permitted to progress to the next academic year or to receive their degree until a payment plan or full payment has been agreed with the Director of Finance.
- 4.5. A student who is in tuition fee debt to the College and breaks their agreement with the Director of Finance may have his or her registration terminated, at the discretion of the Principal.
- 4.6. Debts arising from fines, accommodation or other purchases from the College will be subject to commercial debt recovery procedures. Students with such debts will not be permitted to attend a Graduation Ceremony until the debt is paid.

Students having difficulty, for whatever reason, in paying tuition fees, hall fees, or any other fees owing to the College, are strongly advised to discuss their problem at an early stage with the Warden of the Hall of Residence and/or the Money and Welfare Adviser (moneymatters@rvc.ac.uk) or tel. 0207 468 5037). Discussion with a supervisor may also be helpful. The College will make every effort to view the situation of individual students sympathetically, but is bound ultimately to collect any income owing to it. The College operates a small Hardship fund administered by the Money and Welfare Adviser who can provide details about the application procedure.

Educational Development

Educational Development tutors are available if you have been out of education for a while, are not used to the academic system here and/or generally need some advice on study skills and strategies. Contact EDtutors@rvc.ac.uk or visit their pages on [RVC Learn](#) to find out more about their services, book a 1-2-1 appointment and access online support materials.

Enrolment

Make sure you always enrol promptly with the Graduate School and **keep them informed of changes to any of your contact details or relevant personal details**. That way council tax exemption certificates, certificates of attendance and communications from RVC can be dealt with as quickly and efficiently as possible.

Ethics and Welfare Committee

The RVC is committed to ensuring that we promote animal welfare as our first priority. It is acknowledged, however, that it is necessary to undertake research to achieve this aim. As an academic institution research is also undertaken for knowledge acquisition of the basic and medical sciences; clinical training and for treatment trials aimed to improve the health and welfare of animals and human patients. All have the potential to have adverse effects on research participants. British law places a very strong burden of responsibility on scientists undertaking any research to ensure that any adverse effects are eliminated or minimised, and always fully justified.

The Committee, which is a committee of the Council of the Royal Veterinary College and to which it reports, was set up initially to meet the legal requirements within the Animals (Scientific Procedures) Act 1986 [A(SP)A]. It is responsible for the Animal Welfare & Ethical Review Body (AWERB) that reviews Project Licenses (PPLs). In addition, it must ensure that clinical research projects, which are done by veterinary surgeons licensed to practice in the UK [as recognised veterinary practice can legitimately be done under the Veterinary Surgeons Act (1966)] and other research projects on animals that do not fall under A(SP)A are ethically sound - this is done through the Clinical Research Ethical Review Board (CRERB). In particular, it is able to advise and arbitrate on those projects where there may be doubt or debate about the appropriate legislation for the study. Thus the Committee ensures that members of staff of the RVC do not contravene the law, thereby protecting both the College and the individual. Most importantly, its principal aims are to ensure that any potentially harmful effects on animals involved in research studies are minimised and to ensure that the outcomes of the research will have maximum benefits for animals and/or people through improved understanding of diseases and disorders, and enhanced treatment modalities.

The Committee is also responsible for ensuring that any studies involving people, be they students, members of staff, animal owners or members of the general public, are conducted ethically with due regard to ensuring that there is no compulsion, maintaining both confidentiality and anonymity based on the concept of informed consent.

There are three sub-committees who deal with the ethical approval of research, depending on the type of research undertaken. These are:

- [AWERB](#) - for projects involving the A(SP)A
- [CRERB](#) - for clinical animal and human research not involving the A(SP)A
- [SSRERB](#) - for research involving social science, case records or archives

More information about the Committee can be found on the Intranet [here](#).

Health

Students who are not already registered with a doctor should do this as soon as possible on arrival.

You can find your nearest NHS practice by entering your postcode in www.nhs.uk.

Camden Campus

Students living in RVC halls of residence in the Bloomsbury area may register with the University's Central Institutions Health Service. This is situated at 20 Gower Street, London WC1E 6DP (tel: 020 7467 6800) which is within walking distance of the Halls and a short bus ride away from the College in Camden Town. The Service provides NHS clinics (medical, dental, psychotherapy) and home visits for students registered with the Practice. *University Vision* in the University of London Union Building, Malet Street, London WC1E 7HY (tel: 020 7636 8925) can provide eye care for University students at discounted rates.

Hawkshead Campus

Students living in halls of residence on campus should register with the local medical practice - Parkfield Medical Centre. Their contact details are The Walk, Potters Bar, Herts, EN6 1QH (tel: 01707 291 041).

Medical treatment for overseas visitors and students

Students resident overseas who are attending courses at the College for a period of **more than six months** are eligible for treatment under the National Health Service and should register with a general medical practitioner (GP). Before any treatment is given make sure it is clear that you wish to be treated on the NHS and not as a private patient or you will have to pay a fee. When you attend a hospital or register with a GP, you should take evidence that you are in the UK as a student - for example, your passport, evidence of your address in the UK and a letter from the RVC confirming that you are following a course of study with us.

Identity Cards

You will be issued with a College identity (ID) card when you register. This **MUST** be worn at all times when you are on the premises. If you lose your identity card, you will have to apply for a replacement at a cost of £10. The swipe card access system is used on both sites.

Insurance

At home

Responsibility for students' belongings rests with the individual. We advise that you take out contents insurance whilst attending the College.

Travelling on College business

When a student is to undertake study or research overseas, they must inform the Graduate School where and when they intend to travel.

Policy document: [Finance - Insurance](#)

All RVC students who are undertaking placements, study or research overseas (*i.e. away from their country of residence* *) as part of their registered degree programmes are protected by the College's Personal Accident & Travel Insurance.

** Under the definitions for this insurance, the country of residence is deemed to be the UK for any student who is undergoing education in the UK.*

The College, in order to protect itself and those acting on its behalf, maintains legal liability insurance policies that are of relevance to students undertaking overseas work, study or research activities:

- Public Liability - covering accidental death of or injury to any person (other than an employee) &/or accidental damage to property for which the College has a liability at law or is found to be legally liable.
- Employers Liability - covering liability to employees [as are defined in the policy wording] for death, injury or disease arising out of or in the course of their employment and for which the College has a liability at law or is found to be legally liable. For further information on College Insurance Policies, please follow this link: <http://intranet.rvc.ac.uk/Finance/Insurance.cfm>

Journal Access

If students have any issues regarding accessing journals while off site, the instructions [here](#) should be useful.

If you require access to journals that the RVC does not subscribe to, there is an Inter-Library Loan facility available. Please see the information [here](#). The cost is £8 per article.

If there are journals that you think RVC should provide access to, students can suggest titles via YouSayWePay wepaybook@rvc.ac.uk

Keeping in Touch

The Graduate School normally contacts students via email to inform them of events, seminars, training opportunities and general correspondence regarding the Research Degree programme.

All students are assigned an RVC email address upon registration. We therefore require all students to use their RVC email address for College correspondence, including students based off-site.

Library and Information Services Division (LISD)

Web Address:

<https://intranet.rvc.ac.uk/professional-services/infrastructure-services/library-and-it.cfm>

Library

Camden and Hawkshead Library Opening Hours can be found [here](#).

Library Services Contact Details can be found [here](#).

For information relating to library tours, induction, general information and EndNote training please contact library@rvc.ac.uk

For information regarding journal access see [here](#).

Information Technology Services (IT)

For assistance with configuration of computers, laptops, IT problems and AV equipment, the ISD Helpdesk can be contacted by phone, email or logging an enquiry online. In addition to the in-house ISD Helpdesk service provided during normal College hours, we now offer an Out of Hours Helpdesk facility which operates in conjunction with other universities to provide assistance during evenings, weekends and Bank Holidays.

Further information on accounts and passwords, printing, remote access and more can be found [here](#).

Plagiarism

Plagiarism is regarded as a serious and punishable offence. Any quotations of work published in printed or electronic form should be attributed and the source appropriately cited.

Your thesis will be put through anti-plagiarism software (Turnitin) when you submit your thesis for examination.

Postgraduate Academic Progress Issues

If you have a problem that is affecting your ability to study, whenever possible, you should approach your primary or a co-supervisor in the first instance. However, if this is not possible, perhaps because the problem is to do with supervision, or you simply aren't comfortable talking to your supervisors, you can arrange to see the Head of the Graduate School informally. Please email or come to the Graduate School to make an appointment.

Postgraduate Student Advisors

In addition to speaking to the Head of Graduate School, students are welcome to contact any of the members of staff listed below for general advice on matters relating to their studies.

Name	Telephone	Email
Dr Siobhan Abeyesinghe Siobhan is part of the Animal Welfare Science & Ethics group at the RVC and is based in the Pathobiology and Population Sciences (PPS) department at the Hawkshead Campus.		sabeyesinghe@rvc.ac.uk
Dr Dagmar Berner Dagmar is a lecturer in Equine Diagnostic Imaging and is based in the Clinical Science and Services (CSS) department at the Hawkshead Campus		dberner@rvc.ac.uk
Prof. Brian Catchpole Brian is part of the Comparative Physiology & Medicine research group at the RVC and is based in the PPS department at the Hawkshead Campus.		bcatchpole@rvc.ac.uk
Prof Virginia Luis Fuentes Virginia is Head of the Cardiology Service and is based in Hawkshead splitting time between clinics at the Queen Mother Hospital, teaching and research.		vluisfuentes@rvc.ac.uk
Dr Scott Roberts Scott is part of the Comparative Physiology & Medicine research group at the RVC and is based in the CBS department at the Camden Campus.		sjroberts@rvc.ac.uk
Dr Claire Russell Claire is part of the Comparative Physiology & Medicine research group at the RVC and is based in the CBS department at the Camden Campus.		crussell@rvc.ac.uk
Dr Helen Stolp Helen is part of the Comparative Physiology & Medicine research group at the RVC and is based in the CBS department at the Camden Campus.		hstolp@rvc.ac.uk
Dr Tim West Tim is part of the Comparative Physiology & Medicine research group at the RVC and is based in the CBS department at the Hawkshead Campus.		twest@rvc.ac.uk

Pregnancy

Should any student be pregnant, become pregnant, or plan to become pregnant, they should contact the Research Degrees Officer or Head of PG Administration as soon as possible, so that appropriate advice can be given. They should be aware that there are risks to the pregnancy that can result from exposure to animals and the performance of laboratory or clinical duties.

There is particular risk from zoonotic pathogens, the use of some drugs, and during radiography. A copy of the Maternity/Paternity Policy for Postgraduate Research Students and eligibility for receiving maternity and paternity pay can be found on the Graduate School site on RVC Learn.

Student Performance and Development System (SPDS)

SPDS deals with matters of academic progress that are beyond normal supervisory activity. Further information about SPDS can be found [here](#).

Students may refer themselves to SPDS at any time by contacting the Research Degrees Officer. They may also be referred to the system by their supervisor(s), assessors or the Head of the Graduate School, if a student has given cause for concern in relation to their academic progress.

The contact email for the SPD team is SPD@rvc.ac.uk.

Student Social Media Policy

The Royal Veterinary College recognises that social media provides unique opportunities to participate in interactive discussions, engage with the wider community, and share information using a wide variety of media. The College encourages students to engage in appropriate and responsible use of social media, which allows for useful communication channels and maintains the wellbeing of individuals and the wider community.

However, use of social media can pose risks to both students and the College. These include risk to the College's reputation and compliance with legal obligations. Students may also be at risk of committing offences or projecting an image that does not conform to their professional standards, which may have long term effects on their professional reputation. To minimise these risks the College requires students to adhere to this [policy](#), which outlines student responsibilities when using social media.

Students' Union

All postgraduate students are automatically members of the RVC Students' Union which runs and supports many clubs and societies within the College. More information can be found at <http://su.rvc.ac.uk/>

There are two PG Officers who represent postgraduate student interests on College Committees and are able to offer support and advice. In 2022/23 the PG Officers are Bonnie Man and Anju Loveridge and can be contacted on supostgrad@rvc.ac.uk

The RVC SU is affiliated to the University of London Students' Union (ULU), which means students are entitled to be members of ULU as well. Go to <http://www.ulucol.ac.uk/> for more information about the work and activities of ULU. Proof of student status can be obtained from the Graduate School.

Use of Experimental Animals

Experimental work using animals is performed under the Animals (Scientific Procedures) Act 1986 (ASPA). All such work requires a Home Office Project Licence which gives the authority to perform specific regulated procedures on specific animals at a specific place or places. In addition all personnel who carry out procedures on experimental animals must be in possession

of a Home Office Personal Licence which grants them permission to carry out the required procedures. It will be necessary to attend Home Office training courses before applying for a personal licence for the first time.

Experimental work performed under ASPA can only be carried out in specified areas of the College, which have been authorised by the Home Office as suitable for that purpose. There are designated areas located at all the College's campuses, namely Camden, Hawkshead and Bolton's Park Farm.

There are a number of people at the College who have specific responsibilities under ASPA. The BSU can provide a list of contacts when working under ASPA or as required.

There are three sub-committees who deal with the ethical approval of research, depending on the type of research undertaken. These are:

- AWERB - for projects involving the A(SP)A
- CRERB - for clinical animal and human research not involving the A(SP)A
- SSRERB - for research involving social science, case records or archives

Work - International Students

For up to date information on working in the UK, please see [UKCISA](#).

Please note that EU students that do not have pre-settled or settled status are restricted to working 20 hours a week during term time as all other international students, as per the terms of their student visas.

Facilities, Maps and Travel

General

Inter-Campus Mail

Internal mail is sent between the campuses once daily. Mail leaves Camden at 10.30 each morning, and leaves to return from Hawkshead and Bolton's Park at about 11.15am. Internal mail for another College site must be left in the post room in both Camden or Hawkshead, with the addressee's name, department and campus clearly written on the envelope. Small, folded pieces of paper can easily get lost.

Inter-Campus Travel

The nearest railway station to the Hawkshead campus is Brookman's Park but Potters Bar station, which is also close by (approximately 5 min by car), is reached by a fast train (20 minutes) from Kings Cross station and is served by a College bus service. To get from Potters Bar station:

- The College runs a shuttle bus service which leaves the station forecourt at regular intervals throughout the day on Mondays to Fridays. For an up-to-date timetable go to: <http://intranet.rvc.ac.uk/InformationAndServices/HawksheadBusTimetables.cfm>
- A minicab company is located in the station forecourt (telephone 01707 650077)

Sports Facilities

The College's Sports and Wellbeing Centre (SAWC) is situated at the Hawkshead campus. There are a number of football, rugby and cricket pitches and two hard tennis courts. These facilities are available for any member of staff or student attending the College. Health and Safety regulations must be complied with at all times. Use of the football, rugby and cricket pitches is by pre-booking only by ringing ext. 6321. There are a number of Sports Clubs, including Rowing, Mountaineering etc. For more information about RVC sport clubs please see the following link: <http://su.rvc.ac.uk/pages/sports-a-z>.

Students have access to a gym at both campuses. Access is via your College ID card. In order to have your ID card activated, you will have to attend an induction session. To book an induction, please go to <https://learn.rvc.ac.uk/course/view.php?id=293>

Camden

Bicycles

Please ensure that your bicycle is securely locked using a D Clamp. The bicycle shed is located at the rear right hand corner of the building behind the skips. Please do not lock bicycles to the railings outside the College entrance or anywhere down the main drive near the gates: if they don't get stolen first, they'll be 'relocated' by the College authorities.

Lost Property

When found, should be handed in at Reception where it will be logged. Enquiries about lost property can be made there.

Motor Vehicle Parking

Parking is very limited with only a few designated staff being permitted to park on site. There is no provision for student car parking. If you do need to drive to College you will need to park

using a 'pay' car park or the pay and display parking in Royal College Street. Both are expensive.

Printing and Photocopying

There are photocopiers in a number of locations around the campus. Your college ID card is needed to log into the photocopiers and credit can be purchased from the issue desk in the library. Copyright rules must be followed. College printer and photocopy paper may not be removed under any circumstances.

Restaurant

The Lightwell café in Camden is normally open Monday to Friday, serving snacks, cakes, sandwiches and drinks. Vending machines are situated at the back of the café, to the left hand side of the serving counter.

During term time, the restaurant is normally open for breakfast and lunch. More information and opening times can be found [here](#).

It is STRICTLY FORBIDDEN for laboratory coats, wellington boots, overalls and similar clothing to be worn in, or taken into, the restaurant or café. Catering staff have been asked not to serve anyone who is wearing or carrying any such clothing.

Security

Entry/Exit to the College is by the Main doors on Monday to Friday until 6pm. Students can access the main building via the side door after 6pm on weekdays and at the weekends. Doors have special magnetic release locks. Please ensure that you always carry your College ID/swipe card with you. You may be asked to show this in order to gain access to the College. If you see anything or anyone that you feel to be suspicious, please report it to staff at reception.

Please familiarise yourself with College Fire and Emergency evacuation procedures. The fire alarms are tested every Monday morning at 10am. This test alarm will ring for 10 seconds - if the alarm rings for longer, please evacuate the building immediately using the nearest exit (do not use the lift) and go directly to the assembly point which is on Royal College Street, across the road, directly in front of the RVC.

Anyone staying in the building after 6.30pm must sign the Register in reception.

Smoking

The College operates a 'No Smoking' policy. Smoking outside the front entrance is also not permitted.

Telephones

Students are not permitted to use College telephone or fax machines for private business.

Hawkshead

Bicycles

Please ensure that your bicycle is securely locked using a D Clamp. There are secure areas where bicycles can be stored.

Lost Property

When found, should be handed in at Reception where it will be logged. Enquiries about lost property can be made at Reception.

Motor Vehicle Parking

Post Graduate students may apply for a parking permit based on various extenuating circumstances including: Blue Badge Holders, being a carer or parent with child care responsibilities, having no or extremely limited public transport access etc.

Applications will be reviewed by representatives from the College Transport Management Group and the Infrastructure Services team whose decision will be final.

More information can be found [here](#).

The Hawkshead campus is not only a teaching campus, but also a place where clients bring sick animals. This makes for a very busy campus in terms of traffic. For these reasons, certain areas are restricted to visitors and staff only.

No parking by students is allowed in the Queen Mother Hospital car park, except out of hours for students on clinical rotations. Please note that your insurance may be invalidated if you park in a non-authorised parking space and damage is caused to your motor vehicle by any delivery or other vehicle or by an animal.

Printing and Photocopying

There are photocopiers in a number of locations around the campus. Your college ID card is needed to log into the photocopiers and credit can be purchased from the issue desk in the library. Copyright rules must be followed. College printer and photocopy paper may not be removed under any circumstances.

Restaurant

The café on the ground floor of the Eclipse Building is normally open Monday to Friday, serving snacks, cakes, sandwiches and drinks.

During term time, the restaurant is normally open for breakfast and lunch. More information and opening times can be found [here](#).

Vending Machines (cold drinks and snacks) are placed around the Campus.

It is **STRICTLY FORBIDDEN** for laboratory coats, wellington boots, overalls, and similar clothing to be worn in, or taken into, the restaurant or cafe. Catering staff have been asked not to serve anyone who is wearing or carrying any such clothing.

Security

The College has a 24 hour security presence. The Security Guard is generally to be found in the Gatehouse at the Main Entrance and can be reached on ext. 6258. The guard also has two-way radios available for student use. Any student concerned about working late at night should ensure that the guard is aware of where they are and borrow a radio in order to be able to keep in constant touch in the case of an emergency. Students working in one of the hospitals must immediately contact the Duty Clinician in the case of a clinical emergency or the Security Guard for any other reason.

Please familiarise yourself with College Fire and Emergency evacuation procedures. The fire alarms are tested every Tuesday from 7.30 - 11am. This test alarm will ring for 10 seconds - if the alarm rings for longer, please evacuate the building immediately using the nearest exit (do not use the lift) and go directly to the nearest assembly point. This varies depending on the building you are in so please ask where this is when you begin your studies.

Telephones

Students are not permitted to use College telephone or fax machines for private business. There is a telephone in Odiham Hall that can be used for internal calls only.

Potters Bar and the Surrounding Area

The Hawkshead campus is situated near to Potters Bar in the south of Hertfordshire. This is an excellent location for motorways, plus the rail links into London make Potters Bar a popular location. Other towns and villages near to Potters Bar include [Borehamwood](#), [Brookman's Park](#) and [Hatfield](#) and the London suburb of [Barnet](#),

Potters Bar was once a Roman town and evidence of this can be seen at [Potters Bar Museum](#). This museum includes exhibits from a Roman tile kiln and it was this connection with pottery that helped to give Potters Bar its name.

There are plenty of [restaurants](#) and [pubs](#) to choose from in the town. There is also a theatre - [Wyllyotts](#) - which puts on a varied schedule of shows and entertainment throughout the year.

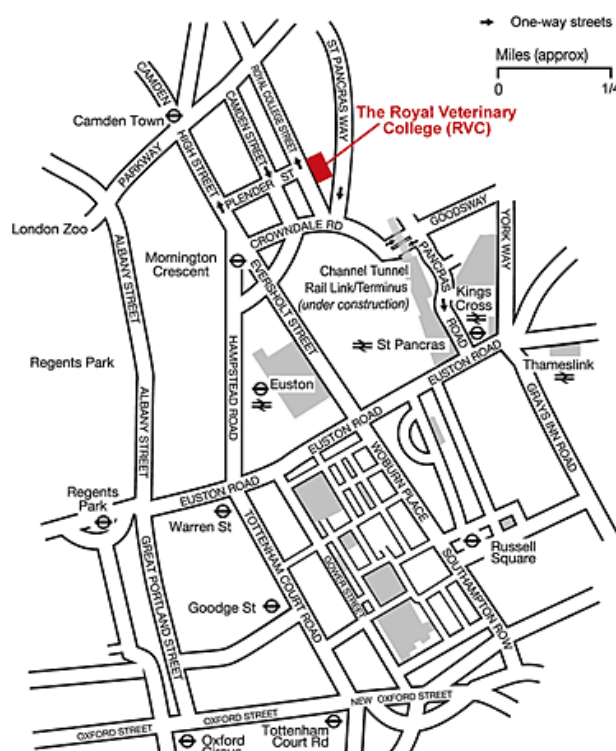

The following link gives you more information regarding what to do in Potters Bar and its surrounding areas: <http://www.pottersbar.org/>

Camden Campus

Contact Details:

The Royal Veterinary College
Royal College Street
London
NW1 0TU
Tel: +44 (0) 20 7468 5000

The Campus is approximately 1 mile north of King's Cross/St. Pancras and Euston mainline and underground railway stations, all of which are located on the Euston Road.

The closest Underground stations are:

- Mornington Crescent (Northern Line (Charing Cross Branch))
- King's Cross (Northern Line (Bank Branch), Piccadilly, Victoria, Hammersmith and City and Circle Lines).

Travel Directions

From King's Cross or St. Pancras International Station

From Kings Cross Station or Kings Cross/St Pancras Underground Station follow signs to St Pancras International Station.

Once in St. Pancras International Station make your way to the Midland Road exit. This is between the Great Northern/Thameslink ticket barriers.

Leave via the Midland Road exit turning right immediately and walk straight on (keeping St. Pancras Station on your right hand side). Within about 10 metres cross the road at the pelican

crossing. Continue walking the way you were heading (with St. Pancras Station on your right) for about 5 minutes; in that time, you should pass a sign pointing straight on for Kentish Town and Camden Town, then a traffic light T-junction, several bus stops and St. Pancras Parish Church (on the opposite side of the road). Shortly after you see St. Pancras Church cross the road using the zebra crossing and continue heading in the direction that you were travelling. This will bring you to another traffic light junction. Here you should cross St Pancras Way at the Pedestrian Crossing and then turn right after Goldington Buildings. This is Royal College Street the home of our Camden Campus. Our main entrance, which has a flag flying above it, is approximately 150 metres up Royal College Street on the right hand side, past the London Bioscience Innovation Centre.

Alternatively, you can take either the 214 or 46 bus from just outside King's Cross on the Pancras Road up to the College.

From Mornington Crescent Underground Station

Turn immediately right on leaving the Station and head east along Crowndale Road. Proceed over the traffic lights at the junction with Camden Street and pass the row of shops on your left. Turn left at the next junction to take you into Royal College Street. Cross this road and the main entrance to the College is approximately 150 metres on the right hand side.

From Euston Station

If arriving by mainline train, leave by the left hand exit (next to WH Smiths, the newsagent) as you enter the concourse on leaving the platform. If arriving via the Victoria line, proceed up the escalator onto the concourse and head straight ahead to the east exit. Walk along the colonnade and turn left into Eversholt Street. Proceed along Eversholt Street and turn right into the south side of Oakley Square at the first set of traffic lights. Turn right again at the next set of traffic lights into Crowndale Road. Pass the row of shops on your left. Turn left at the next junction to take you into Royal College Street. Cross this road and the College is approximately 150 metres on the right hand side.

Hawkshead Campus

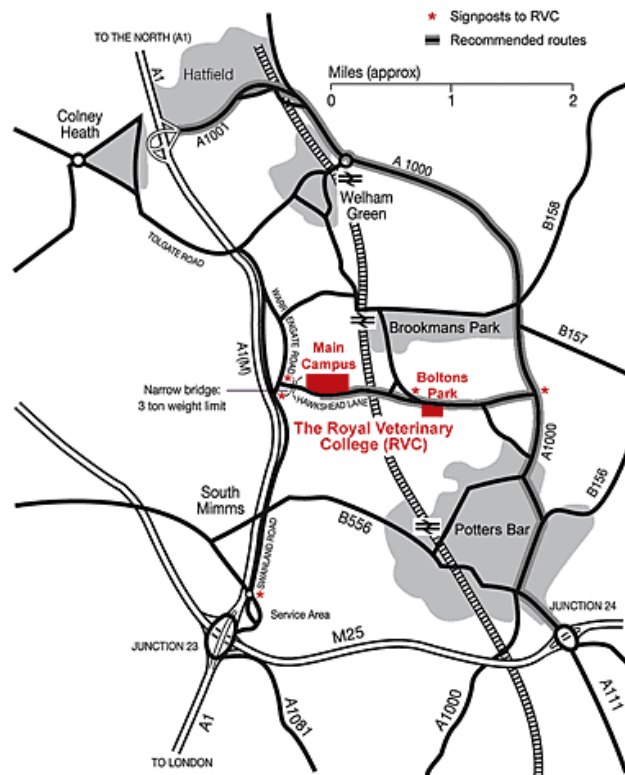

Contact Details:

The Royal Veterinary College
Hawkshead Lane
North Mymms
Hertfordshire
AL9 7TA

Tel: +44 (0)1707 666333

Fax: +44 (0)1707 652090

The campus is located near the town of Potters Bar in Hertfordshire which is just a short train journey away from London's King's Cross station, and not far from the main roads leading north from London.

Travel Directions

By Road

Approaching the campus from the south, most visitors enter the local road system from either Junction 23 (with the A1(M)) or Junction 24 of the M25. From the north, follow the Veterinary College road signs in to Hawkshead Lane for the Hawkshead Main Site.

[Larger vehicles (such as those carrying animals or making deliveries) are urged to approach (and leave) the College's Hawkshead Main Site from the east - such as from Junction 24 of the M25 then via the A1000 through Potters Bar to Hawkshead Road, then into Hawkshead Lane.]

Cyclists and pedestrians are urged to take particular care in the generally narrow and unlit local byways around the campus.

By Rail

The nearest railway station is Potters Bar which is approximately 5 minutes by car from the Hawkshead main site.

Trains (operated by Great Northern and Thameslink) generally run every thirty minutes, during normal working hours with a reduced service at the weekend, from London King's Cross; the journey takes about 20 minutes.

A minicab company is located in the Potters Bar railway station forecourt (telephone 01707 650077). The College runs a shuttle bus service which leaves the station forecourt (Mondays to Fridays and reduced service on weekends)

College Regulations and Policies

General Regulations for Study and Awards

These Regulations apply to all RVC students and can be found [here](#).

Academic Misconduct

Academic misconduct is defined for this purpose as:

- a) An attempt by a student to complete an examination, project or other assessment by any means considered to be unfair.

This definition includes actions such as

- Plagiarism (see below for more details)
- unreasonable collusion between a group of students and
- research misconduct (see below for more details)
- falsifying results
- taking unauthorised materials or devices into examination rooms without permission
- other breaches of the [General Assessment Regulations](#)

- b) If a student misrepresents a case of extenuating circumstances in order to gain extension to a deadline or any other advantage in assessment this shall be considered as academic misconduct.

The definition of plagiarism used by RVC

Plagiarism is the copying and use of someone else's work, whether intentionally or unintentionally, as if it were the student's own. Another person's work includes any source that is published or unpublished that has been produced including words, images, diagrams, formulae ideas and judgments, discoveries and results. Direct quotations, whether extended or short, and from the published or unpublished work of another person must always be clearly identified. Quotations must accurately refer to and acknowledge the author or person who originally wrote or produced the work. Paraphrasing - using other words to express another person's ideas and judgments - must be acknowledged (in a footnote or bracket following the paraphrasing).

The definition of Research Misconduct used by RVC

Research Misconduct includes (but is not limited to): fabrication; falsification; misrepresentation of data and/or interests and/or involvement; piracy (deliberate exploitation of the ideas of others without their consent); plagiarism and failure to follow accepted procedures or to exercise due care in carrying out your responsibilities for i) avoiding unreasonable risk or harm to animals or humans used in research and the environment ii) the proper handling of privileged or private information on individuals collected during the research.

More information on Academic Misconduct and the procedure to be followed where academic misconduct is suspected can be found [here](#).

Appeals Procedure

Students may wish to put forward a case regarding their results or continuation of study as result of various factors. Depending on the factors cited, the case will be considered either as an Appeal a potential Administrative Error or a Complaint.

A student who makes an appeal will suffer no disadvantage as a result of making an appeal.

Details about the Appeals procedure, including the grounds for making an appeal and how to prepare for an appeal can be found [here](#)

Complaints Procedure

Complaints made against the action(s) of a member of staff or the operation of a College service are addressed using the Complaints procedure. Complaints which are of wider concern should normally be made through collective channels, such as PG representatives on College committees.

Details about the complaints procedure, including the grounds for making an appeal and how to prepare for an appeal can be found [here](#)

Complaints that involve bullying or harassment are dealt with through a separate procedure. Any student who finds themselves in a situation of apparent harassment or bullying is advised to keep a record of the incident(s) and in the first instance, to seek support and information from an appropriate person. The advisor will provide support and information on the best possible way forward in dealing with the problem, and can be consulted at any stage during this process. Taking advice does not oblige the individual to take any action, but it does provide an opportunity to discuss their perception of events and their effects and to consider the options available:

The Dignity at Work policy, procedure for dealing with alleged bullying and harassment and a list of Harassment Advisors trained for this purpose, can be found under D at the following link: <http://www.rvc.ac.uk/about/our-people/human-resources/a-to-z>

Professional Requirements Procedure

Given the nature of the work at RVC, which in all courses involves exposure and access to animals and drugs, expectations of professional requirements apply to all students. These expectations are clearly stated in the Code of Professional Requirements which can be found [here](#).

Appendix A

Good Research Practice (GRP)

The College's guidelines on GRP apply to all personnel, new and existing, who carry out research within the RVC. Awareness of GRP is an important part of an individual's training requirement.

The GRP documents can be found on the Intranet at the following link and links are included below:

<http://intranet.rvc.ac.uk/DeptResearch/good-research-practice.cfm>

Research Integrity

The College expects all staff and students undertaking research to recognise that it is their responsibility to carry out their work so with rigour and integrity and to the highest possible ethical standards.

The College has introduced a "Research Integrity Quiz" and accompanying presentation. It is compulsory for all PhD students to complete the quiz within 3 months of starting their PhD and the Graduate School will be monitoring the completions.

The quiz and presentation are available at:

<https://learn.rvc.ac.uk/course/view.php?id=870>

Other useful information produced by the College relating to research integrity can be found on the Intranet at:

<https://intranet.rvc.ac.uk/DeptResearch/Docs/research-integrity-for-staff-and-students-2020.pdf>

Appendix B

Instructions and notes on submission, format and binding of theses submitted for the degrees of MRes, MPhil and PhD

For the requirements of a thesis (including any length limitations), the current Regulations for the relevant degree should be consulted.

Every candidate submitting a thesis for examination must do so in accordance with the following instructions:

1. Title Page

The title page must bear

- the officially-approved title of the thesis
- candidate's full name as registered (followed by any previous qualifications, if desired)
- the name of the College/Institute at which the candidate was registered and the degree for which it is submitted
- The month and year which it was submitted
- The following copyright statement:

"The copyright in this thesis is owned by the author. Any quotation from the thesis or use of any of the information contained in it must acknowledge this thesis as the source of the quotation or information."

The title page should be followed by a signed declaration that the work presented in the thesis is the candidate's own (format given in Appendix A of these instructions).

2. Abstract

The title page should be followed by an abstract summarising the work presented in the thesis and consisting of no more than 300 words.

3. Acknowledgments

The acknowledgments of the thesis are written in gratitude to all those who were instrumental in bringing the thesis to fruition.

4. Table of Contents

The acknowledgements should be followed by a full table of contents (including any material not bound in) and a list of tables and figures.

5. Layout

Margins at the binding edge must be not less than 40mm (1.5 inches) and other margins not less than 20mm (0.75 inches). Double or 1.5 line spacing should be used throughout, except for indented quotations or footnotes where single spacing may be used.

6. Pagination

All pages must be numbered from the first to the last page in one continuous sequence, i.e. from the title page to the last page, in Arabic numerals from 1 onwards. This sequence must include everything bound in the thesis, including figures, diagrams, blank pages, bibliography, appendices etc. Any material which cannot be bound in with the text must be placed in a pocket inside or attached to the back cover or in a rigid container similar in format to the bound thesis.

7. Presentation

Theses must be presented in a permanent and legible form in a clear and legible font (e.g., Times New Roman 12 or Arial 10). You must make every effort to correct grammatical and formatting errors before submission. It is not the task of Examiners to act as editors and/or proof-readers of a thesis.

8. Paper

A4 size paper (210 x 297 mm) should be used. Plain white paper must be used, of good quality and of sufficient opacity for normal reading. The thesis can be printed double-sided, provided that good quality paper is used.

9. Referencing

Either the Harvard or Vancouver style of referencing should be used.

Detailed information on referencing can be found on RVC Learn at:

<https://learn.rvc.ac.uk/mod/book/view.php?id=80252>

Detailed information regarding plagiarism can be found on RVC Learn at:

<https://learn.rvc.ac.uk/mod/book/view.php?id=80252&chapterid=136702>

10. Published work

Papers describing information contained in the thesis that have been published can be included as an appendix.

11. Number of copies

In normal circumstances **two** copies must be submitted to the RVC Graduate School. **Three** copies need to be submitted if you are being examined by three examiners. Each candidate is required to bring one additional copy to the oral examination paginated in the same way as the copies submitted to the RVC and adequately bound. An exact electronic copy (PDF format) of the thesis should also be sent to the Research Degrees Officer just before or at the time of submission.

12. Binding

All submitted copies of the thesis must

- be **soft-bound** with pages glued in;
- be covered in medium blue cloth (water resistant material);
- be lettered in gold up the spine with Degree (PhD), Year, and Surname and Initials, with letters 16 or 18 point (.25 inch).

[The date on the copies of the thesis submitted for examination in November and December should be that of the following year.]

13. Binders

Addresses of binders are available from the Graduate School and RVC Learn.

14. Additional Information

Examiners often require candidates to make minor amendments to otherwise successful theses. They may either give you the annotated theses back after the oral examination or ask the Research Degrees Officer to do so.

If you are asked directly by your examiners to make amendments, you should forward an electronic copy of the revised thesis to the Research Degrees Officer who will pass it on to either or both of the examiners.

The Research Degrees Officer will not issue the result of the examination to successful candidates until the Graduate School has received the final electronic copy of the thesis and the examiners have confirmed that any required amendments to the thesis have been made.

Once the examination is successfully completed, the library log an electronic copy of the thesis so that the research undertaken can be publicly available. A hard-bound copy should be printed and given to the supervisor(s), if requested.

If at any stage you are uncertain what to do, please ask the Research Degrees Officer at the RVC.

Revised September 2021

Appendix A

Student Declaration form

On submitting the thesis, a student will be required to insert the following signed Declaration into their bound thesis:

I certify that:

1. The thesis being submitted for examination is my own account of my own research;
2. My research has been conducted ethically;
3. The data and results presented are the genuine data and results actually obtained by me during the conduct of the research;
4. Where I have drawn on the work, ideas and results of others this has been appropriately acknowledged in the thesis;
5. Where any collaboration has taken place with other researchers, I have clearly stated in the thesis my own personal share in the investigation;
6. The greater portion of the work described in the thesis has been undertaken subsequent to my registration for the higher degree for which I am submitting for examination;
7. The thesis submitted is within the required word limit as specified by the RVC; the total number of words is given below.

Student signature.....

Date:

Word count:.....

Travel

Prior to any overseas travel on College/Research business you must complete a risk assessment.

[Overseas Travel Risk Assessment Policy](#)

[Overseas Risk Assessment Form A](#)

[Overseas risk assessment Form B](#)

A summary of the Approval process for Students Travelling Overseas can be found [HERE](#)

This process **MUST BE FOLLOWED** for all travel overseas.

Policy document:

Appendix D

GUIDELINES ON PERSONAL RELATIONSHIPS AT WORK

This guide is intended to provide information to employees regarding personal relationships within the College, in order to avoid any perceived, actual or potential conflicts of interest or misuse of authority.

1 INTRODUCTION

- 1.1 The College values and relies upon the professional integrity of its employees, particularly where an employee has supervisory responsibilities or a professional relationship with a student.
- 1.2 So that employees conduct themselves and are perceived to conduct themselves in a professional manner, it is necessary to recognise and take account of personal relationships which might affect working relationships.
- 1.3 The College is committed to promoting equal opportunities and eliminating discrimination.

Accordingly, these guidelines will be applied fairly and consistently and with due regard to equality of treatment.

- 1.4 The guidelines do not form part of employees' contracts of employment. They will be kept under review and may be revised from time to time.

2 SCOPE AND PURPOSE

- 2.1 The guidelines apply to all individuals working at all levels and grades, including full time and part- time employees.
- 2.2 In the context of these guidelines:
 - (a) a 'personal relationship' is a personal relationship which is:
 - (i) a family relationship;
 - (ii) a business/commercial/financial relationship; or
 - (iii) a sexual/romantic relationship; and
 - (b) a 'working relationship' is any situation in which individuals will interact in the course of their day-to-day work. This includes situations where one of the individuals in the personal relationship is not an employee of the College. For example, they might be an agency worker, or work for a contractor.
- 2.3 The guidelines apply to personal relationships between:
 - (a) employees of the College;
 - (b) an employee of the College and an agency worker, casual worker, consultant, contractor or supplier, and/or

an employee of the College and a current student of the College,

2.4 Although most social and personal relationships need not present a difficulty, it is recognised that there will be certain circumstances where employees may need to avoid taking certain decisions or undertaking certain roles in order to protect themselves and the College from any potential allegations of impropriety, unfair bias, abuse of power or conflict of interest.

2.5 These guidelines are therefore intended to:

- (a) provide guidance in areas where a personal relationship overlaps with any working relationship and particularly where it might cause:
 - (i) a conflict of interest (for example where an employee's personal interests clash with their professional obligations);
 - (ii) breach of confidentiality;
 - (iii) unfair advantage; or
 - (iv) allegations of abuse of power;
- (b) ensure that an employee in a personal relationship is not open to allegations that it has affected a working relationship; and
- (c) enable the situation to be managed, if considered necessary, with a view to avoiding difficulties within any working relationship.

3 PERSONAL RELATIONSHIPS BETWEEN EMPLOYEES AND/OR AGENCY WORKERS, CASUAL WORKERS, CONSULTANTS, CONTRACTORS OR SUPPLIERS

3.1 To maintain professionalism and avoid embarrassment to others, an employee in a personal relationship should avoid public displays of affection in the workplace. This includes, for example, kissing, touching and holding hands.

3.2 Where an employee is in a line management or supervisory position, that employee must not be involved in any recruitment, appraisal, promotion, disciplinary or grievance process or in any other process involving the other. Where authorisation is required for any financial matters e.g. expenses claims/salary changes or allocation of external funding for an employee with whom a personal relationship has been declared, additional independent authorisation must be sought.

3.3 When an employee has been in a personal relationship, but it has come to an end, they must throughout remain professional and ensure that the ending of the relationship does not affect their work or their working relationships.

3.4 Employees should at all times conduct themselves in a manner consistent with their role and duties and the College's policies and procedures (including those relating to equality and diversity and dignity at work).

4. PERSONAL RELATIONSHIPS BETWEEN EMPLOYEES AND CURRENT STUDENTS

- 4.1 It is vital that trust and confidence exist between employees and students to ensure that students maximise their learning experience. The professional relationship between a student and an employee of the College is a central part of the student's educational development. A personal relationship could compromise this professional relationship and damage the teaching and learning environment for other students and employees.
- 4.2 Employees are strongly discouraged from entering into a personal relationship with a student they are responsible for teaching, tutoring, supervising or assessing. It would be considered unprofessional for an employee to seek actively to initiate a personal relationship without regard to the problems that may ensue.
- 4.3 If a consensual personal relationship does develop between an employee of the College and a student they are responsible for teaching, tutoring, supervising or assessing, the employee must declare the relationship to their line manager without delay. Any such disclosure will be treated sensitively.
- 4.4 The College reserves the right to discontinue the responsibility of the member of staff for teaching, tutoring or supervising a student with whom they have a personal relationship.
- 4.5 In no circumstances will an employee be permitted to take part in the assessment of a student with whom they have a personal relationship.
- 4.6 In the event that the supervision of a Post-Graduate student involves two employees who are in a personal relationship, a third supervisor should always be assigned.

5. CONFIDENTIAL DECLARATION OF A PERSONAL RELATIONSHIP IN A LINE MANAGEMENT OR SUPERVISORY WORKING RELATIONSHIP

- 5.1 Where a personal relationship exists or develops within a line management or supervisory working relationship, the line manager's manager must be informed. Upon receiving this information, the line manager should seek further guidance from Human Resources.
- 5.2 Employees may be reluctant to disclose their personal relationship, but it is important that the College is able to assess any risk of conflict of interest, unfair advantage or breach of confidentiality and discuss with employees concerned, ways in which such issues can be avoided.
- 5.3 Information relating to a disclosure of a relationship will be handled with confidence. Employees will be treated with sensitivity during this process.
- 5.4 Upon learning of the personal relationship, the College will consider what, if any, steps need to be taken. Due regard will be given to the potential effect of the relationship on others in the College, any potential negative effect on the workings of a department or team and the professional

conduct of the College's business.

- 5.5 The employee concerned will be consulted with a view to reaching agreement regarding the appropriate action. No action will be taken without first discussing it fully with the employee concerned.
- 5.6 The College may, at its discretion, make alternative management arrangements. This may include transferring some of an employee's duties or transferring an employee to another department. Any actions to be taken will be confirmed in writing to any employee concerned.
- 5.7 In no circumstances will an employee be permitted to appraise another employee with whom they have a personal relationship, nor will they be permitted to sign off expenses or other administrative documentation.
- 5.8 If it is considered necessary to inform other employees about the personal relationship (for example, in order to explain a change in management arrangements) this will be discussed first with the employee concerned.
- 5.9 If the circumstances of the personal relationship change, the employee must also advise their line manager, who may seek advice from Human Resources. The previously agreed actions will be reviewed in consultation with the employee and any further appropriate action taken.

6 PERSONAL RELATIONSHIPS NOT IN A LINE MANAGEMENT OR SUPERVISORY WORKING RELATIONSHIP

- 6.1 Even where there is no managerial/supervisory relationship with an employee in a personal relationship, there may still be a risk of a conflict of interest, breach of confidentiality or unfair advantage being perceived to be gained from the overlap of a personal and working relationship.
- 6.2 Where there is any possibility of conflict of interest, breach of confidentiality or unfair advantage, the relationship should also be declared as above.
- 6.3 An employee should seek the guidance of Human Resources if in any doubt as to whether or not there is or might be a risk of a conflict of interest, breach of confidentiality or unfair advantage.
- 6.4 Upon learning of the personal relationship, the College will consider what, if any, steps need to be taken, as above.
- 6.5 The line manager/head of department, in consultation with HR, may consider transferring one party or both parties, making alternative line management or supervisory arrangements or implementing other appropriate arrangements to eliminate the conflict of interest, depending on the circumstances. In very rare circumstances, such alternative arrangements may not be feasible and the College may then have to consider dismissing one or both parties.

7. FAILURE TO DISCLOSE A PERSONAL RELATIONSHIP IN ACCORDANCE WITH THESE GUIDELINES

7.1 In the event that an employee fails to declare a personal relationship where required to do so in accordance with these guidelines, or where it would have been prudent to do so, disciplinary action will be taken. Serious cases will be dealt with as gross misconduct.

8. HARASSMENT & BULLYING

8.1 Employees are reminded that unwanted attention given by either party, whether at work or outside work (for example, when a personal relationship has ended) could constitute bullying and/or harassment. In such cases disciplinary action may be taken. Serious cases will be dealt with as gross misconduct.

9 DATA PROTECTION

9.1 Any personal data provided to the College as a result of this policy will be treated in accordance with the principles set out in the Data Protection Act 1998.

10. FURTHER GUIDANCE

10.1 Employees may seek further guidance, on a confidential basis, from the HR department.
