* Credits awarded for the EBVE bridging module do not count towards the PG Diploma award.

*Evidence Based Veterinary Education (EVBE)

EBVE is a bridging module only and is a requirement for PG Diploma students who plan to progress to the MSc.

The module is designed to provide basic research methods support and is aimed at
- students who do not have prior Level 7 research experience
- students whose Bachelor degree did NOT include a research project.

Most students who hold a Bachelor degree or higher will be exempt from this requirement.

For further clarification on relevant prior experience, please contact the Course Director, Liz Chan: echan@rvc.ac.uk.

> EBVE is taught annually, at the same time as the final PG Diploma module for that academic year, only study one module at any one time.
> It is recommended that you take EBVE in your final year of your PGDip studies.
