

INTERESTED IN BECOMING A FARM VET?

WELSH FARMING / VETERINARIAN

TASTER WEEK

It's career decision time!

The week is intended for students in the 16-19 year old category who may be considering a career in the agricultural industry. The emphasis will be on those considering studying veterinary medicine though other students may find the course of interest.

The Welsh Branch of the British Veterinary Association is fully supportive of this week and several speakers are members of the Branch Council.

What we aim to give you:

During your time with us we are aiming to give you as a person that has ambitions to become a veterinary surgeon the chance to discuss the nature of being a farm vet with practicing vets and farmers. We also aim to give you an insight into where the veterinary surgeon fits in the modern food industry.

This course will be run by members of the Royal Veterinary College and Coleg Sir Gâr.

The 'only' Welsh Veterinary Taster course

Course Features:

- Farm focused
- Taster of the industry
- Reference to support entry into Vet School
- College Certificate of Attendance
- Potential career paths and income
- Helping you decide on a future career
- Short Course

Location:

Gelli Aur Campus, Gelli Aur, Carmarthen,
Carmarthenshire, SA32 8NJ
Telephone 01554 748578

The campus is purpose built complex which is also home to the 211 hectare college farm. Situated in the fertile Tywi valley, three miles from Llandeilo and 14 miles from Carmarthen.

The Week

Gelli Aur is a commercial working dairy farm as well as an agricultural college, your week will start here discussing how the dairy farm works, the pressures it faces and how the veterinarian and the farmer work together on this farm. Farm staff and experienced dairy vets will be there to guide you through the workings of the farm and to answer questions as well as challenge you with thoughts that you may not have considered.

Beef and sheep farming are two important Welsh farming industries and once again we will visit farms to discuss with farm staff and vets how their industry works.

The farming industry is in place to produce food and vets also have a role once the animals leave the farm. We will visit an abattoir (once they have finished their mornings work!!) and chat to the vet about his role.

During the week attendees will be given the chance to discuss other career opportunities that vets can be involved in such as the pharmaceutical industry, AHVLA etc.

Speakers from the RVC will give guidance on the application process for all the universities.

Example Timetable

Monday	Morning Arrival - Introductory talk (CVO or BVA President). Afternoon Gelli Aur Farm Walk /Milking/Dairy Farmer. Evening Social event with staff.
Tuesday	Morning Beef farmer visit/housing/nutrition. Afternoon Sheep veterinary issues (parasites lameness). Evening Diseases of farming importance.
